	Number of study hours	160		0.0		0.0	160
Subject objectives	The purpose of completing this subject is to provide students with relevant work experience in their field of study. Students are required to fulfill mandatory internships and submit reports according to the schedule outlined in the internship regulations of WZR. These internships can be conducted in various settings, including business units, public institutions, research centers, educational institutions, and cultural organizations. Additionally, internships may be part of organized activities by the university that align with the internship objectives. For more information on the regulations for professional internships at WZR UG, please refer to the Internship Regulations available on the Faculty of Management's website at the University of Gdańsk.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[FiRL3_K01] Self-development: - understands the need for development and lifelong learning - is able to supplement and improve the acquired knowledge and skills - knows his strengths and weaknesses, sets ambitious goals to the best of his ability - knows how to accept failure and admit mistakes.	The student develops creativity and entrepreneurship through self-improvement by participating in innovation projects and adapting to changing market conditions.	[SK7] entries and opinions in the internship diary
	[FiRL3_W02] The student has advanced knowledge of various types of economic structures and institutions and changes in them, in particular: banking system, insurance system, taxation system, financial markets, organization of the public finance system and the private sector. The student knows the interrelationships between these structures and social institutions on a national and international scale.	The student acquires extended theoretical and practical knowledge about financial structures and institutions through documentation analysis and discussions with colleagues and superiors.	[SW2] presentation/project/paper/report
	[FiRL3_U06] The student uses the acquired knowledge to resolve dilemmas arising in professional work. The student is able to solve advanced problems in finance and accounting that arise in business practice: - compare financial instruments, - evaluate the profitability of the enterprise, - evaluate the financial position of the organization against the industry, - propose appropriate solutions to tax problems, - identify and select appropriate risk management methods, - construct an enterprise insurance protection program, - select sources of financing for the organization, - construct an appropriate accounting/control system.	The student can solve complex finance and accounting problems in real-world situations. This includes evaluating the profitability of a business, selecting an appropriate controlling system, assessing the financial position and sources of financing for the enterprise, conducting risk assessments and choosing suitable risk management strategies.	[SU7] entries and opinions in the internship diary
