University of Gdańsk

Subject card

Subject name and code	Training Practice, PG_00167622						
Field of study	National Security						
Date of commencement of studies	October 2025		Academic year of realisation of subject		2026/2027		
Education level	Master's studies		Subject group		Obligatory subject group in the field of study		
Mode of study	full-time studies		Mode of delivery		at the university		
Year of study	2		Language of instruction		Polish		
Semester of study	4		ECTS credits		10.0		
Learning profile	practical		Assessment form		credit		
Conducting unit							
Name and surname of lecturer (lecturers)	Subject supervisor		dr Piotr Robakowski				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	360.0	0.0	0.0	0.0	360
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	360		0.0		0.0	360
Subject objectives	During their internship in the field of security, students will gain knowledge about national and international security frameworks, including legal and regulatory aspects. They will apply theoretical knowledge in practice, learning to identify, assess, and manage risks. Students will gain operational experience by participating in activities related to security, crisis management, and cybersecurity. They will learn intelligence gathering and analysis, interagency collaboration, and the use of modern security technologies.						

Learning outcomes	Course outcome	Subject outcome	Method of verification

Is prepared to initiate safety activities and make independent decisions and be responsible for the results of own actions and those of the team manages.	He possesses the ability to prioritize goals, methods of operation, and set priorities in the field of security.	[SK7] entries and opinions in the internship diary
	[BNMU2_U06] Is able to organise and analyse the causes and effects of security threats and indicates important countermeasures, skillfully arguing and using the acquired knowledge to convey knowledge in oral and/ or written statements in the field of security.	He is capable of organizing and analyzing the causes and effects of security threats within a company or institution.	[SU8] observation of student's independent or team work
	[BNMU2_W13] Understands and identifies risk management and decision-making mechanisms in an orderly and advanced manner, including the essence and importance of the relationship between the media and the sphere of security, including legal and ethical issues in the field of intellectual property and copyright protection.	He understands and systematically identifies advanced mechanisms of risk management and decision-making, including the essence and significance of the relationship between the media and the security sector. He is knowledgeable about the legal and ethical issues related to intellectual property protection and copyright law.	[SW1] oral statement/ conversation/discussion
	[BNMU2_K01] Is prepared to be active in the labour market in the area of security, is aware of the need to independently improve qualifications, collect and analyse information, critically assesses the knowledge possesses and acquires.	He is prepared for active participation in the job market within the security sector, with an awareness of the necessity for continuous self-improvement, information gathering, and analysis. He critically evaluates both the knowledge he possesses and the knowledge he acquires.	[SK8] observation of student's independent or team work

Subject contents	

Introduction to Internal Security

- Overview of internal security concepts and definitions
- Historical development and significance of internal security
- Legal and regulatory framework

2. **Risk Management and Assessment**

- Introduction to risk management principles
- Techniques for risk assessment and analysis
- Case studies of risk management in various sectors

3. **Crisis Management**

- Fundamentals of crisis management
- Developing and implementing crisis response plans
- Crisis communication strategies

4. **Security Operations and Procedures**

- Overview of security operations in different environments
- Standard operating procedures (SOPs) for internal security
- Implementation and monitoring of security measures

5. **Cybersecurity Basics**

- Introduction to cybersecurity principles
- Identifying and mitigating cyber threats
- Best practices for cybersecurity in organizations

6. **Intelligence Gathering and Analysis**

- Techniques for gathering intelligence
- Analyzing and interpreting intelligence data
- Using intelligence for strategic security planning

7. **Interagency and Interdepartmental Cooperation**

- Importance of collaboration in internal security
- Models of interagency and interdepartmental cooperation
- Practical exercises in building cooperation frameworks

8. **Legal and Ethical Considerations**

- Legal aspects of internal security
- Ethical issues in security operations
- Intellectual property and copyright law

9. **Security Technology and Innovations**

- Latest technologies in internal security
- Implementing and managing security technologies
- Evaluating the effectiveness of security solutions

10. **Public Safety and Community Policing**

- Role of public safety agencies
- Community policing strategies
- Building trust and cooperation with the public

11. **Corporate Security Management**

- Security management in corporate settings
- Developing corporate security policies
- Case studies of corporate security incidents

12. **Threat Analysis and Mitigation**

- Identifying potential threats to internal security
- Developing threat mitigation strategies
- Practical exercises in threat analysis

13. **Cultural and Social Aspects of Security**

- Impact of cultural and social factors on security
- Strategies for managing security in diverse environments
- Case studies of security in different cultural contexts

14. **Practical Workshops and Simulations**

- Simulated security incidents and response drills
- Practical exercises in security planning and implementation
- Role-playing scenarios to enhance decision-making skills

15. **Evaluation and Continuous Improvement**

- Methods for evaluating security performance
- Techniques for continuous improvement in security practices
- Feedback and reflection sessions

16. **Capstone Project**

- Development of a comprehensive security plan for a hypothetical or real organization
- Presentation and defense of the security plan
- Peer review and feedback
