

Subject card

Subject name and code	Criminology I (Criminal Biology) - lecture, PG_00167899						
Field of study	Kryminologia I (Biologia kryminalna) - wykład						
Date of commencement of studies	October 2025		Academic year of realisation of subject		2025/2026		
Education level	Bachelor's studies		Subject group		Obligatory subject group in the field of study		
Mode of study	part-time studies		Mode of delivery		at the university		
Year of study	1		Language of instruction		Polish		
Semester of study	1		ECTS credits		2.0		
Learning profile	academic		Assessment form		exam		
Conducting unit	Laboratory of Neurobiology -> Department of Animal and Human Physiology -> Faculty of Biology -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		dr Wojciech Glac				
	Teachers		dr Wojciech Glac				
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	15.0	0.0	0.0	0.0	0.0	15
	E-learning hours included: 0.0						
	eNauczanie source addresses: Moodle ID: 13165 Biologia kryminalna - st. niestac. 25/26 https://mdl.ug.edu.pl/course/view.php?id=13165						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	15		0.0		60.0	75
Subject objectives	• learning and understanding the neurobiological and social determinants of crime • learning and understanding the brain mechanisms underlying antisocial and criminal behavior • learning and understanding the mechanisms underlying the interactions between social and biological factors in their mutual influence on an individual's antisocial and criminal behavior						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[KRYML3_K02] In advanced degree is able to make a critical assessment of his knowledge and received content, responsibly prepares for work, is able to determine priorities and adequately plan work		Is able to critically evaluate facts through the lens of advanced knowledge and skills in criminal biology, define objectives, and plan work on a given problem within the field of criminal biology.		[SK1] wypowiedź ustna/rozmowa/ dyskusja [SK5] realizacja zadania problemowego		
	[KRYML3_WG02] To an advanced degree, he knows the terminology and key concepts of law, criminology and related sciences, including law, psychology and sociology, to the extent related to the studied major		Demonstrates advanced knowledge of criminal biology, including the neurobiological basis of antisocial and criminal behavior, as well as the social determinants of criminality.		[SW4] test/egzamin - ustny lub pisemny [SW1] wypowiedź ustna/rozmowa/ dyskusja		
	[KRYML3_UW01] In advanced level is able to use theoretical knowledge of criminology and related disciplines to analyze, interpret and solve problems related to criminology		Is able to apply knowledge of criminal biology to interpret the causes of criminal behavior and to assess an individual's vulnerability to criminal behavior based on their biological traits and social environment.		[SU3] opracowanie tekstowe/ praca pisemna [SU5] realizacja zadania problemowego		

Subject contents	- theories about the causes of crime - the role of genes and environment in the development of crime - human behavior and its regulation, emotions, motivation, drive reactions, free will, learning and conditioning - brain mechanisms influencing susceptibility to antisocial and criminal behavior and their inter-individual variability - brain mechanisms leading to antisocial and criminal behavior carried out in the so-called with passion and premeditation - the impact of mental disorders and personality disorders on the tendency to commit criminal behavior - biological differences between women and men and their impact on the tendency to engage in criminal behavior		
Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	quizzes	51.0%	20.0%
	elaborations	51.0%	20.0%
	problem-based task	51.0%	50.0%
	discussions	51.0%	10.0%
Recommended reading	Basic literature	any academic textbook on criminology
