

Subject card

Subject name and code	Field workshop - socio-economic basis of spatial management (5 days), PG_00168183						
Field of study	Land Management						
Date of commencement of studies	October 2025		Academic year of realisation of subject		2025/2026		
Education level	Bachelor's studies		Subject group		Obligatory subject group in the field of study Subject group related to scientific research in the field of study		
Mode of study	full-time studies		Mode of delivery		at the university		
Year of study	1		Language of instruction		Polish		
Semester of study	2		ECTS credits		2.0		
Learning profile	academic		Assessment form				
Conducting unit	Division of Regional Development -> Institute of Socio-Economic Geography and Spatial Management -> Faculty of Social Sciences -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		dr Krzysztof Kopeć				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	30.0	0.0	0.0	0.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		15.0		30.0	75
Subject objectives	To impart knowledge of land-use forms in urbanised and non-urbanised areas and the anthropogenic factors shaping these forms, to impart skills of field observation, interpretation and evaluation of observed forms in the context of the concepts of spatial order and sustainable development.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[GPL3_K01] make decisions independently and be responsible for the effects of their own actions and those of their team's	organises and carries out team and individual work on a chosen topic, prepares and presents the results of the team's work	[SK1] oral statement/conversation/discussion [SK2] presentation/project/paper/report
	[GPL3_W05] conditions and processes of spatial management, with particular regard to the specifics of Polish maritime areas and voivodeships of northern Poland	lists and describes the social (cultural, legal and economic) determinants and processes of spatial management, classifies and characterises the relationship between factors and forms of land use, exchanges factors specific to coastal areas	[SW1] oral statement/conversation/discussion [SW2] presentation/project/paper/report
	[GPL3_K05] take up professional roles in an entrepreneurial manner	demonstrates initiative and independence of thought and action and applies the principles of effective goal attainment - answers questions, discusses issues, forms own judgements on discussed forms of spatial development, identifies goals and ways to achieve them in accordance with the concept of spatial order	[SK1] oral statement/conversation/discussion [SK2] presentation/project/paper/report
	[GPL3_K03] identify and resolve cognitive problems related to the profession in accordance with the latest knowledge in the field of spatial management, including expert opinions	demonstrates initiative and independence of thought and action and applies the principles of effective goal attainment - answers questions, discusses issues, forms own judgements on discussed forms of spatial development, identifies goals and ways to achieve them in accordance with the concept of spatial order	[SK1] oral statement/conversation/discussion [SK2] presentation/project/paper/report
	[GPL3_U02] correctly identify and explain the conditions of spatial management of a particular area and forecast the impact of basic social processes on the structure of spatial development, and on this basis propose adequate actions within spatial policy, in particular in relation to Polish maritime areas and voivodeships of northern Poland	recognise and characterise the land-use forms observed, identify and describe the conditions that have influenced the land-use forms observed	[SU1] oral statement/conversation/discussion [SU2] presentation/project/paper/report
Subject contents	Land-use patterns in urbanised areas Land-use forms in non-urbanised areas Socio-economic conditions of spatial management Cultural determinants of spatial management		
Prerequisites and co-requisites	- knows and understands simple interactions between natural and human environment subsystems- has a basic knowledge of the concepts of sustainable development and spatial order and understands their significance for spatial management- has basic knowledge of the economic conditions and processes of spatial management with particular emphasis on the specificity of Polish maritime areas and provinces of Northern Poland- has basic knowledge in the scope of forms, methods and tools of space protection (landscape, cultural heritage)- identifies simple human-environmental interactions in relation to a specific area and is able to determine their effects- is able to basically operationalise the concept of spatial order and apply it in spatial management practice		
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Coursework and presentation	51.0%	100.0%

Recommended reading	Basic literature	A. Literatura wymagana do ostatecznego zaliczenia zajęć (zdania egzaminu): A.1. wykorzystywana podczas zajęć Lindenberga M., 2008, Potencjał społeczno-ekonomiczny jednostek samorządowych województwa pomorskiego, Urząd Marszałkowski Województwa Pomorskiego. Departament Rozwoju Regionalnego i Przestrzennego, Gdańsk. A.2. studiowana samodzielnie przez studenta Szmytkowska M., Masik G., Czepczyński M., 2010, Trendy rozwoju oraz ocena jakości kapitału ludzkiego w województwie pomorskim, Urząd Marszałkowski Województwa Pomorskiego, Gdańsk. Plan zagospodarowania przestrzennego województwa pomorskiego, Urząd Marszałkowski Województwa Pomorskiego, Gdańsk.
