The apprentice cooperates with the practice supervisor in providing care for the group and in conducting teaching activities. The scope of teaching practice includes both teaching and caring competencies. Getting acquainted with the work of a Kashubian teacher in an elementary school (in special situations a secondary school; to be agreed with the internship supervisor), getting acquainted with the specifics of school work, lesson hospitalization, lesson analysis, didactic reflection. Teaching practice is carried out under the guidance of a mentor teacher at the school - in a school selected with the practice supervisor from UG. During the internship, interns should hospitalize lessons (a minimum of 16) and the student should conduct one lesson independently.
