

Subject card

Subject name and code	General Linguistics, PG_00133569						
Field of study	Polish Studies						
Date of commencement of studies	October 2025		Academic year of realisation of subject		2025/2026		
Education level	Master's studies		Subject group		Obligatory subject group in the field of study Subject group related to scientific research in the field of study		
Mode of study	full-time studies		Mode of delivery		at the university		
Year of study	1		Language of instruction		Polish		
Semester of study	1		ECTS credits		2.0		
Learning profile	academic		Assessment form		exam		
Conducting unit							
Name and surname of lecturer (lecturers)	Subject supervisor		dr hab. Ewa Badyda				
	Teachers		dr hab. Hanna Makurat-Snuzik				
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	20.0	0.0	0.0	0.0	0.0	20
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	20		6.0		24.0	50
Subject objectives	Systematizing students' knowledge of the subject of linguistics, including its historical aspect, and its various disciplines, as well as the intersection of linguistics with other disciplines of the social sciences. Familiarization with the universal features of language as a cultural artifact of humanity, with basic issues concerning vocabulary, with the problematics of language contact, and with language typology.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[FPMU2_K02] While undertaking a variety of tasks and projects in accordance with the rules of thinking and acting in an entrepreneurial manner he uses his linguistic knowledge in the responsible way.	The student responsibly applies linguistic knowledge in working on particular language phenomena.	[SK4] test/exam - oral or written
	[FPMU2_U05] Has in-depth research skills in linguistics, including analysis of a variety of texts, generalization of research results, selection of research methods and tools, elaboration and presentation of results, enabling original solutions to complex problems.	The student can apply linguistic methods to analyze and interpret linguistic phenomena from various domains. The student can interpret these phenomena from different research perspectives.	[SU4] test/exam - oral or written
	[FPMU2_W05] Has in-depth knowledge of the interrelationship of linguistics with other fields of the humanities and selected areas of the social sciences, especially cultural studies, art sciences, philosophy, history, psychology, sociology, and is aware of the basic problems and research opportunities arising from the interrelationship among these fields.	The student is aware of the connection of linguistics with other areas of the humanities and social sciences. The student recognizes a language as a culturally and socially constructed entity. The student knows about selected elements of a language, the mutual influence of languages and their diversification.	[SW4] test/exam - oral or written
