| Subject objectives                          | The aim of the course is to develop the ability to work with a broadly understood text from applied texts to scientific discourses. Exercisesprepare students for a critical reading of written statements. Participants also gain the skills to construct their ownstatements written and oral supporting students in creating final theses and master's thesis.The classes are practical, workshop-based, conveying theoretical knowledge in the context of its application. |                                                          |                                         |                                     |                                                                                                                                       |            |     |
