

Subject card

Subject name and code	Strategies for sustainable development of enterprises, PG_00170007						
Field of study	Economics						
Date of commencement of studies	October 2025		Academic year of realisation of subject		2027/2028		
Education level	Bachelor's studies		Subject group		Obligatory subject group in the field of study Optional subject group		
Mode of study	full-time studies		Mode of delivery		at the university		
Year of study	3		Language of instruction		Polish		
Semester of study	5		ECTS credits		3.0		
Learning profile	academic		Assessment form		credit		
Conducting unit							
Name and surname of lecturer (lecturers)	Subject supervisor		dr hab. Barbara Pawłowska				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	30.0	0.0	0.0	0.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		10.0		35.0	75
Subject objectives	The aim of the course is to develop students ability to analyse and implement strategies that integrate environmental, social, and governance (ESG) aspects into business operations, in line with global trends and regulatory frameworks. The course combines theoretical foundations with practical application, equipping students with the knowledge and skills necessary to design and implement sustainable development strategies in modern enterprises.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[EKONL3_U04] can predict and forecast the course of economic and social processes and phenomena	The student is able to forecast economic and social processes in the context of sustainable development, anticipating their trajectory and assessing their potential impact on the functioning of modern enterprises.	[SU1] oral statement/conversation/discussion [SU2] presentation/project/paper/report
	[EKONL3_K03] participates in the preparation of economic and social projects, being able to reconcile legal, economic, ecological, political and social requirements	The student participates in the development of socio-economic projects, demonstrating the ability to balance legal, economic, environmental, political, and social requirements in line with the principles of sustainable development.	[SK2] presentation/project/paper/report
	[EKONL3_K01] recognises the importance of economic knowledge in identifying and solving economic problems and of consulting experts when difficulties in solving them independently	The student recognises the importance of economic knowledge in identifying and solving business-related challenges arising in the implementation of sustainable development strategies, and demonstrates the ability to consult experts when such issues cannot be addressed independently.	[SK2] presentation/project/paper/report
	[EKONL3_W02] has advanced knowledge of the different types of existing business entities and organisations and public institutions	The student demonstrates advanced knowledge of various types of business entities, economic organisations, and public institutions, with particular emphasis on their role and potential in planning and implementing sustainable development strategies.	[SW1] oral statement/conversation/discussion [SW5] implementation of a problem task
	[EKONL3_U02] is able to use the knowledge of theory and data to analyse concrete economic and social processes and phenomena and to analyse these phenomena using methods developed in economics, finance and management sciences	The student is able to apply theoretical knowledge and collect relevant data to analyse specific economic and social processes and phenomena — including those related to sustainable development — using methods developed in economics, finance, and management sciences.	[SU2] presentation/project/paper/report
	[EKONL3_W03] has advanced knowledge of the relations between economic agents and social organisations operating in the national, international and intercultural arenas	The student demonstrates advanced knowledge of the relationships between economic actors and social organisations operating at national, international, and intercultural levels, particularly in the context of implementing sustainable development strategies.	[SW1] oral statement/conversation/discussion

Subject contents	1. Introduction to corporate sustainable development strategies - Definitions, objectives, and directions of sustainable development - Key challenges for companies: Environmental, social, and economic dimensions 2. Identifying and defining development problems in enterprises - Methods for identifying business needs - Problem formulation in project-based terms 3. Designing strategic solutions - Analytical and planning tools (e.g. stakeholder analysis, problem matrix, cost-benefit analysis) - Balancing social, economic, legal, and environmental requirements 4. Project work solving real-world business challenges - Team-based work on problems submitted by industry partners - Consultations with academic supervisors and company representatives 5. Preparation of a report and presentation of results Any doubts regarding the issues discussed during classes can be discussed during consultations.		
Prerequisites and co-requisites	Knowledge of the fundamentals of macroeconomics and microeconomics, as well as of the functioning of a business enterprise.		
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Attendance and active participation – 10 points	51.0%	20.0%
	Presentation of proposed solutions – 20 points	51.0%	30.0%
	Written report – 30 points	51.0%	50.0%
