

Subject card

Subject name and code	Simulations and Management Games, PG_00170199						
Field of study	International Economic Relations						
Date of commencement of studies	October 2025		Academic year of realisation of subject		2026/2027		
Education level	Master's studies		Subject group		Obligatory subject group in the field of study		
Mode of study	full-time studies		Mode of delivery		at the university		
Year of study	2		Language of instruction		Polish		
Semester of study	4		ECTS credits		2.0		
Learning profile	academic		Assessment form		credit		
Conducting unit	Department of Macroeconomics -> Faculty of Economics -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		dr Andrzej Poszewiecki				
	Teachers		dr Andrzej Poszewiecki				
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	15.0	0.0	0.0	0.0	0.0	15
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	15		12.0		23.0	50
Subject objectives	The aim of the course is to provide the knowledge and skills necessary to design, conduct and discuss a simple management game.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[MSGMU2_U02] can observe, evaluate and critically analyse the causes and course of processes and phenomena taking place in the open economy; can formulate his/her own opinions on the subject, interpret statistical data and economic indicators necessary in this respect, and also forecast economic processes and phenomena using advanced methods and tools applied in economic sciences	The student analyzes and interprets business game results, formulating forecasts and conclusions about market activities of enterprises.	[SU2] presentation/project/paper/report
	[MSGMU2_W09] has an in-depth knowledge of selected areas of the functioning of a modern enterprise in the national and international environment; understands the conditions, principles and consequences of decisions taken in its structures aiming at the development, and the dependencies among enterprises on the international market	The student understands the relationships between decisions made in the game and enterprise development in an international environment.	[SW2] presentation/project/paper/report
	[MSGMU2_U08] can communicate in an international and culturally diverse environment, using advanced terminology of international economic relations; supports his/her position, doubts and suggestions with argumentation based on selected theories, opinions of various authors and/or statistical data	The student justifies decisions made during business games using terminology from international economic relations.	[SU2] presentation/project/paper/report
	[MSGMU2_U07] can plan and manage a commercial transaction on the international market, conduct effective negotiations, analyse and critically assess the course of the transaction	The student plans and conducts simulated trade negotiations, evaluating the effectiveness of negotiation strategies.	[SU2] presentation/project/paper/report
	[MSGMU2_W02] knows an advanced terminology in the field of international economics, international economic relations and complementary disciplines	The student knows the terminology used in business games and simulations and understands its practical application.	[SW2] presentation/project/paper/report
	[MSGMU2_W05] has an in-depth knowledge of the world economy, principles of global market functioning and international financial relations as well as the process of their evolution; understands the causes, regularities and consequences of occurring changes	The student understands global market functioning based on simulations of enterprise activities in foreign markets.	[SW2] presentation/project/paper/report
	[MSGMU2_W06] knows and understands the fundamental dilemmas related to globalisation and the formation of contemporary international economic relations	The student analyzes strategic dilemmas arising in business games related to economic globalization.	[SW2] presentation/project/paper/report
	[MSGMU2_W13] knows and understands methods and tools for describing economic phenomena, including data acquisition techniques, which make it possible to describe and analyse economic entities functioning on the international market as well as processes and phenomena occurring in them and between them, and also those supporting decision-making processes	The student applies data analysis methods in business games to make strategic decisions.	[SW2] presentation/project/paper/report
	[MSGMU2_K02] is ready to critically assess the level of acquired knowledge, skills and professional competence in the area of international economic relations	The student critically evaluates their strategic and decision-making skills developed during business simulations.	[SK2] presentation/project/paper/report

	Course outcome	Subject outcome	Method of verification
	[MSGMU2_K04] is ready to think and act in an entrepreneurial manner; adapts to new situations and conditions; undertakes challenges of creative thinking; acquires resilience to failures; assesses risks and threats and finds ways of counteracting their effects	The student makes decisions in business simulations, demonstrating entrepreneurship and risk assessment.	[SK2] presentation/project/paper/report
	[MSGMU2_K06] is ready to independently identify, diagnose and responsibly resolve dilemmas and alternative solutions related to his/her profession and the development of professional achievements	The student diagnoses decision-making problems in business games and proposes responsible strategic solutions.	[SK2] presentation/project/paper/report
	[MSGMU2_U10] can accurately select and use sources of information on international economic relations, evaluate, critically analyse and creatively interpret them, and can present them in an innovative way, using advanced information and communication techniques	The student uses various information sources to prepare strategies in business simulations and presents them innovatively.	[SU2] presentation/project/paper/report
	[MSGMU2_U11] independently formulates and tests hypotheses related to simple research problems, appropriately selects and applies methods and tools, including statistical tools and data acquisition techniques in order to verify hypotheses and diagnose economic processes, and on this basis to take appropriate economic decisions	The student formulates hypotheses regarding strategic decisions in simulations and tests them, analyzing their impact on enterprise results.	[SU2] presentation/project/paper/report
	[MSGMU2_U14] has a thorough ability to prepare specialist oral presentations on economic and social issues, using specialist theoretical approaches, the principles of collecting data from various sources, their description and interpretation, and drawing conclusions on the basis of scientific literature; can prepare and lead a debate	The student prepares specialist presentations summarizing business simulation results and conducts debates on strategies used in the game.	[SU2] presentation/project/paper/report
Subject contents	I. Managerial games and simulations as a form of employee training 1. Origin of management games 2. Areas of using games and simulations in the enterprise 3. Objectives of the tools used 4. Classification of management games 5. Effectiveness of using management games 6. Constructing games and managerial simulations II. Games, simulations and managerial cases - a practical approach 1. Functioning of teams in the process of change - BRIDGES simulation game. Quality of communication. Teamwork. Conflicts in the team. Emotions in the team. Team leaders. Emotional aspects of change. The role of the leader when introducing change. Communication in the change process. Conflict resolution styles. Emotional control. Team and group. Group roles. The impact of individual roles on team effectiveness. 2. Ability to plan and analyze evaluation criteria - BUILDING A TOWER exercise Goal analysis. The importance of action perception. The importance of time. Leading a small group of people. Learning from mistakes. In order to expand on the concepts discussed during lectures, students may make use of consultations		
Prerequisites and co-requisites	No requirements		
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	project	51.0%	100.0%
