

Subject card

Subject name and code	Port Economy and Policy, PG_00170223						
Field of study	International Economic Relations						
Date of commencement of studies	October 2025		Academic year of realisation of subject		2025/2026		
Education level	Master's studies		Subject group		Obligatory subject group in the field of study		
Mode of study	full-time studies		Mode of delivery		at the university		
Year of study	1		Language of instruction		Polish		
Semester of study	2		ECTS credits		3.0		
Learning profile	academic		Assessment form				
Conducting unit	Division of Maritime Economy -> Department of Maritime Transport and Seaborne Trade -> Faculty of Economics -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		dr hab. Hanna Klimek				
	Teachers		dr hab. Hanna Klimek				
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	30.0	0.0	0.0	0.0	0.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		23.0		22.0	75
Subject objectives	Presentation of the following issues: management in sea ports, port services markets and port policy issues.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[MSGMU2_W04] has an in-depth knowledge of different types and elements of economic structures and institutions, including institutions, organisations and economic entities; understands the causes, course, scale and consequences of changes occurring in them, as well as relations between them on a national, international and intercultural scale; knows the theories explaining relations among them	The student has knowledge about the importance and economic functions of seaports; management of port infrastructure and suprastructure and their reproduction; location of seaports; port policy; port fees; knows the Act on ports and harbors.	[SW4] test/exam - oral or written
	[MSGMU2_W11] has a theoretically grounded, in-depth knowledge of the key issues of managing a business entity on the national and international market and of selected detailed issues of the international supply chain	The student has in-depth knowledge of: port surroundings; intra-port relations and between ports and their surroundings; understands the role and importance of seaports in land-sea transport chains and logistic supply chains; understands the social responsibility of seaports.	[SW4] test/exam - oral or written
	[MSGMU2_U02] can observe, evaluate and critically analyse the causes and course of processes and phenomena taking place in the open economy; can formulate his/her own opinions on the subject, interpret statistical data and economic indicators necessary in this respect, and also forecast economic processes and phenomena using advanced methods and tools applied in economic sciences	The effect does not apply to the lecture	[SU1] oral statement/conversation/discussion
	[MSGMU2_W13] knows and understands methods and tools for describing economic phenomena, including data acquisition techniques, which make it possible to describe and analyse economic entities functioning on the international market as well as processes and phenomena occurring in them and between them, and also those supporting decision-making processes	The effect does not apply to the lecture	[SW1] oral statement/conversation/discussion
	[MSGMU2_W03] knows and understands types of economic ties and the regularities governing them; understands the conditions and principles of the functioning of the market and the market mechanism in the national, international and global aspect	The effect does not apply to the lecture	[SW1] oral statement/conversation/discussion
	[MSGMU2_K06] is ready to independently identify, diagnose and responsibly resolve dilemmas and alternative solutions related to his/her profession and the development of professional achievements	The effect does not apply to the lecture	[SK1] oral statement/conversation/discussion
	[MSGMU2_U03] can identify and analyse relations between business entities and institutions in their national and international environment	The student has systematic knowledge about the port services markets. The student discusses observations and doubts with the teacher during the consultation.	[SU4] test/exam - oral or written
	[MSGMU2_U01] can creatively interpret and explain complex and atypical economic phenomena and the relations occurring between them, using the acquired knowledge in economics, finance and international economic relations	The effect does not apply to the lecture	[SU1] oral statement/conversation/discussion

Subject contents	1. Economic importance of seaports: discussion of the importance of ports in the national economy of individual countries and in the European Union. 2. Economic functions of seaports. 3. Location of seaports. 4. Seaport as a logistics center. 5. Port services markets (PSM): PSM as a spatial and economic category. 6. Competition on PSM; competitiveness of seaports. 7. Port infrastructure as a factor in the production of port services. 8. Financing the development of seaports. 9. Prices of port services. 10. Structural and ownership transformations in Polish seaports. 11. Act on ports and harbors. 12. Seaport development policy in Poland and port policy of the European Union. 13. Social responsibility of seaports. 14. Study visit to the ports of Gdańsk and Gdynia; familiarisation with the tasks and activities of the port authorities and cargo terminals in both ports.		
Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	participation in the discussion	0.0%	10.0%
	exam	51.0%	90.0%
