

Subject card

Subject name and code	International Shipping and Port Markets, PG_00170541						
Field of study	International Economic Relations						
Date of commencement of studies	October 2025		Academic year of realisation of subject		2026/2027		
Education level	Master's studies		Subject group		Obligatory subject group in the field of study		
Mode of study	part-time studies		Mode of delivery		at the university		
Year of study	2		Language of instruction		Polish		
Semester of study	3		ECTS credits		3.0		
Learning profile	academic		Assessment form				
Conducting unit	Division of Maritime Economy -> Department of Maritime Transport and Seaborne Trade -> Faculty of Economics -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		dr hab. Hanna Klimek				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	20.0	0.0	0.0	0.0	20
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	20		15.0		40.0	75
Subject objectives	Presentation the functioning and development of shipping and port services markets.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[MSGMU2_W03] knows and understands types of economic ties and the regularities governing them; understands the conditions and principles of the functioning of the market and the market mechanism in the national, international and global aspect	The student understands the essence, conditions and principles of functioning of shipping and port services markets in the national, international and global aspect.	[SW4] test/exam - oral or written
	[MSGMU2_U04] can use the acquired knowledge to formulate and solve complex problems related to the operation of economic entities on the international market, with particular emphasis on the European Union market	The student is able to use the acquired knowledge to formulate and solve complex problems related to the functioning of enterprises on international markets of shipping and port services. Is able to identify competitors on both types of markets, as well as assess the competitiveness of their participants, both on domestic and international markets. Is able to determine the factors of competitiveness of entities on both types of markets. The student discusses doubts with the teacher during the consultation.	[SU1] oral statement/conversation/discussion [SU2] presentation/project/paper/report [SU5] implementation of a problem task [SU8] observation of student's independent or team work
	[MSGMU2_W05] has an in-depth knowledge of the world economy, principles of global market functioning and international financial relations as well as the process of their evolution; understands the causes, regularities and consequences of occurring changes	The student has in-depth knowledge of the principles of operation of global logistic supply chains and the role of maritime transport in their operation. Understands the global dimension of the shipping services market and the international nature of port services markets. Understands the causes, directions, regularities and consequences of changes taking place on these markets.	[SW4] test/exam - oral or written
	[MSGMU2_U03] can identify and analyse relations between business entities and institutions in their national and international environment	The student is able to identify and analyze the relationships between shipping companies in the shipping services markets and ports (and port companies) in the port services markets. The student discusses observations and doubts with the teacher during the consultation.	[SU1] oral statement/conversation/discussion [SU2] presentation/project/paper/report [SU5] implementation of a problem task [SU8] observation of student's independent or team work
Subject contents	1. Introduction to the functioning of maritime shipping and port service supply centers. 2. Port services markets (PSM): PSM as a spatial and economic category; functioning and development of RUP. 3. Shaping port services markets: competition on PSM; competitiveness of seaports; shaping tools of PSM. 4. Shipping services markets (SSM): essence, functioning and development of SSM. 5. Shaping the markets for shipping services: competition in the RUŻ; competitiveness of sea carriers; shaping tools of SSM.		
Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	activity in classes	51.0%	30.0%
	completing tasks	51.0%	70.0%
