Subject objectives	The aim of the course is to familiarize the student with the basic aspects of the functioning of the European Union, both in the context of internal EU issues and the EU's role in the international economy. Alongside general topics, particular emphasis is placed on the economic aspects of the EU's functioning.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[MSG3_W04] has an advanced knowledge of different types and essential elements of the structures of economic entities and organisations, and public institutions	As part of the course, the student acquires knowledge about the functioning of the European Union in political, economic, and social spheres. The student can define the relationships between the EU and member states. The student uses basic terminology related to the subject.	[SW4] test/exam - oral or written
	[MSG3_U03] can identify and analyse relations between economic entities and public institutions in the national and international environment; using the acquired theoretical knowledge can critically evaluate these relations and indicate directions for their further development or changes	The student identifies the basic opportunities, threats, and benefits associated with the four freedoms, as well as with the implementation of community policies.	[SU4] test/exam - oral or written
	[MSG3_U10] can take an active part in a debate, presenting his/her own viewpoint and supporting it with argumentation based on selected theories, opinions of various authors and/or statistical data	The student is capable of presenting their position on issues related to European integration.	[SU4] test/exam - oral or written
	[MSG3_W11] has an advanced knowledge of (legal, organisational, ethical) rules and norms organising economic structures and institutions (in particular those on the international market)	The student has knowledge regarding the European Union, both in the context of the functioning of the EU internal market and the EU's international relations with the rest of the world.	[SW4] test/exam - oral or written
	[MSG3_U16] can plan and implement his/her own lifelong learning, expand and improve his/her acquired knowledge and economic skills; is open to new ideas and techniques; is willing to learn using any method, and has a tendency to interact with other participants of the learning process	Student potrafi samodzielnie planować proces nauki oraz wykorzystywać nowe metody oraz kanały pozyskiwania wiedzy	[SU4] test/exam - oral or written
	[MSG3_U04] uses the acquired theoretical knowledge in economics to analyse and evaluate the operation of economic entities on the international market, with particular emphasis on the European Union market	The student is able to apply knowledge about the functioning of the EU in practice, especially regarding the operation of a business in the EU internal market.	[SU4] test/exam - oral or written
	[MSG3_W13] has a well-structured knowledge of the functioning of business entities in the national and international environment, with particular emphasis on the European Union	The student possesses knowledge about the impact of the European Union on economic entities operating in the national markets of member states and in the internal EU market.	[SW4] test/exam - oral or written
	[MSG3_K03] participates in the preparation of economic and social projects; can reconcile legal, economic, ecological, political and social requirements	The student is able to identify the economic, legal, and social aspects of the European Union's functioning.	[SK4] test/exam - oral or written
	[MSG3_W06] knows and understands the relations between economic entities and public institutions functioning in the national, international and intercultural realms	The student knows the institutional structure of the EU and the relationships between EU institutions, the institutional structures of member states, and economic entities.	[SW4] test/exam - oral or written
