

Subject card

Subject name and code	International Transport, PG_00172425						
Field of study	International Economic Relations						
Date of commencement of studies	October 2025		Academic year of realisation of subject		2026/2027		
Education level	Bachelor's studies		Subject group		Obligatory subject group in the field of study		
Mode of study	full-time studies		Mode of delivery		at the university		
Year of study	2		Language of instruction		Polish		
Semester of study	4		ECTS credits		1.0		
Learning profile	academic		Assessment form				
Conducting unit	Department of Maritime Transport and Seaborne Trade -> Faculty of Economics -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		dr Janusz Dąbrowski				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	15.0	0.0	0.0	0.0	0.0	15
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	15		5.0		5.0	25
Subject objectives	The aim of the course is to introduce students to general transport issues, familiarize them with the meaning of specialized terms, the specificity of individual modes and types of transport, the functioning of transport markets and the transport policy in the European Union.						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[MSG3_W07] knows and understands types of economic ties and regularities governing them, including the principles of functioning of the market and the market mechanism, both in the national and international aspect		The student has basic knowledge of the functioning of transport, knows specialized terminology, basic principles of functioning of national and international markets for transport services, understands the mechanisms of competition, knows the directions of the European Union's transport policy affecting the functioning and development of transport enterprises. Student discusses transportation issues with lecturer during consultations.		[SW4] test/exam - oral or written [SW1] oral statement/ conversation/discussion		
	[MSG3_K02] critically assesses the level of his/her knowledge in the field of economics; is willing to deepen and update this knowledge throughout his/her life		The student verifies his/her knowledge, understands the need to learn, independently supplement and improve the acquired knowledge.		[SK1] oral statement/conversation/ discussion [SK4] test/exam - oral or written		
	[MSG3_U03] can identify and analyse relations between economic entities and public institutions in the national and international environment; using the acquired theoretical knowledge can critically evaluate these relations and indicate directions for their further development or changes		The student is able to correctly interpret economic and transport phenomena and processes, and analyze economic relations on transport markets.		[SU1] oral statement/conversation/ discussion		

Subject contents	Introduction to the issues of transport (concept and classification of transport, subject of transport, transport infrastructure and superstructure, features of transport production, measures, transport potential and capacity, costs, prices and quality in transport, transport system and network, transport process and chain, economic functions of transport).International markets for transport services (concept, features and types of transport markets, international markets for maritime transport, road transport, railway transport, inland water transport and air transport).Intermodal transport (essence and types of intermodal transport, land-sea container transport, land-ferry transport, rail-road transport, role and tasks of the intermodal transport operator).Transport policy of the European Union (goals and principles of transport policy, development of TEN-T transport infrastructure, EU policy towards individual modes of transport).		
Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Written exam	51.0%	100.0%
