

Subject card

Subject name and code	WPiA - Artificial Work (Emerging Forms of Human-like Gainful Activities in and out of the Legal Framework of Employment), PG_00179139						
Field of study	History						
Date of commencement of studies	October 2025		Academic year of realisation of subject		2025/2026		
Education level	Bachelor's studies		Subject group				
Mode of study	full-time studies		Mode of delivery		e-learning		
Year of study	1		Language of instruction		English Expected English language level B2		
Semester of study	2		ECTS credits		2.0		
Learning profile	academic		Assessment form		credit		
Conducting unit	Faculty of Law and Administration -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		dr Marek Benio				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	30.0	0.0	0.0	0.0	0.0	30
	E-learning hours included: 30.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		2.0		18.0	50
Subject objectives	Identification, analysis and forecasting of the development of untypical forms of employment and gainful activity resulting from the development of digital technology, in particular - artificial intelligence. European Union legislative initiatives, national legislation, jurisprudence and administrative practices of selected EU Member States in the global digital race. Legal framework for new forms of economic activity.						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
			Knowledge - The student knows and distinguishes the basic forms of employment, distinguishes legal entities and parties to the contract, knows the relationship between EU and national law, knows the basic institutions and mechanisms of legislative process in the face of new social and economic phenomena, in particular the development of digital technologies. Skills - The student is able to draft a simple contract in an unusual form of employment, understands and correctly evaluates the regulations and conditions of service provision, knows how to search and use sources of law. Social competences - The student is aware of the benefits and contingencies of the development of digital technologies, takes action to minimize these risks and to use digital tools and AI technologies safely and ethically.		[SW5] implementation of a problem task [SU3] text preparation/written work [SK1] oral statement/conversation/discussion		

Subject contents	1. Classic employment contract - characteristics and identification of features conducive to the displacement of this contract by new forms of employment. The concept of flexible work versus income security, the concept of flexicurity. 2. Working time, rest time. 3. The secret of the flourishing of civil-type contracts of mandate 4. New forms of employment: Uberization and digitization of the labour market. Platform work. Remote work. 5. A workplace without the place is just pure work. Remote work applicable labour law, tax, social security and health insurance legislation 6. Work-life balance. 7. Professional and social fulfilment through work. 8. UBI Universal Basic Income a guaranteed minimum due to AI? 9. Cybersecurity at work AI Act 2024 analysis 10. New professions and the pace of their development a student mini-research project of changes from the period of one semester. 11. The use of AI in traditional work 12. Industry 4,0 13. Human work created with the help of AI 14. Risks associated with learning from human mistakes: discrimination at the recruitment stage, mobbing.		
Prerequisites and co-requisites	Knowledge of basic legal concepts, such as obligation, contract, legal entity, legal capacity and legal action capacity. Distinguishing between basic sources of law: Constitution, laws, regulations, as well as basic knowledge about EU legislation and institutions: Treaty(ies), regulations, directives, decisions, opinions, Council, Parliament, European Commission, Court of Justice of the EU		
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Test/exam	50.0%	20.0%
	Memo or essay	50.0%	30.0%
	Active discussion participation	50.0%	50.0%
