

Subject card

Subject name and code	Phonetics and Phonology of Modern Polish - exercises II, PG_00150578						
Field of study	Logopedics						
Date of commencement of studies	October 2026		Academic year of realisation of subject		2026/2027		
Education level	uniform Master's studies		Subject group		Obligatory subject group in the field of study Subject group related to practical vocational preparation		
Mode of study	full-time studies		Mode of delivery		at the university		
Year of study	1		Language of instruction		Polish		
Semester of study	2		ECTS credits		1.0		
Learning profile	practical		Assessment form		credit		
Conducting unit	Institute of Logopaedics -> Faculty of Languages -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		dr Barbara Kamińska				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	15.0	0.0	0.0	0.0	15
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	15		1.0		9.0	25
Subject objectives	The aim of the classes is to familiarize students with the possibilities of using knowledge in the field of articulatory phonetics and phonology in speech therapy diagnosis and therapy (including dyslalia), mainly: developing the ability to recognize a sound based on a set of articulatory features, and recognizing phenomena in the phonic sequence (analysis and recording these processes using phonological notation), as well as students' knowledge about the development of pronunciation competence (in the normative and pathological aspect) in children.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[LOGJ5_K01] He is ready to critically evaluate his linguistic (including speech therapy) knowledge and modify and supplement it, as well as improve his professional skills; he is ready to formulate moral problems and ethical dilemmas related to his own and others' therapeutic work.	Effectively uses the acquired phonetic and phonological knowledge to self-monitor their own and others' pronunciations	[SK1] oral statement/conversation/discussion
	[LOGJ5_K08] He effectively organizes his work in the field of linguistics and speech therapy and critically evaluates the degree of progress.	Understands the need to constantly update and improve professional skills	[SK1] oral statement/conversation/discussion
	[LOGJ5_W11] He/she has the linguistic knowledge needed to master the foreign language studied as part of the lecture course and Polish as a foreign language. Knows the modern language in accordance with the requirements specified for the B2+ level.	Knows the possibilities of applying knowledge about phonetic and phonological aspects of language in speech therapy.	[SW1] oral statement/conversation/discussion
	[LOGJ5_W02] He knows and understands the methodology of scientific research applied in the fields of humanities and social sciences, the main development trends and fundamental dilemmas of linguistics and speech therapy, as well as the theories explaining the complex relationships between them in their study and application to solving social problems.	Knows the possibilities of applying knowledge of phonetics and phonology in speech therapy.	[SW1] oral statement/conversation/discussion
	[LOGJ5_W01] Has a structured, in-depth and extended knowledge and knows at an extended level the terminology of linguistics and speech therapy (including selected terminology in a foreign modern language).	Knows the terminology in the field of phonetic, phonological and speech therapy issues discussed, necessary for diagnosing and conducting future therapy of speech disorders.	[SW4] test/exam - oral or written [SW1] oral statement/conversation/discussion
	[LOGJ5_U01] Able to distinguish methodological orientations in scientific research, search, analyze, evaluate, select and integrate information in the field of linguistics (including speech therapy) using various sources, selection and application of appropriate methods and tools, including advanced information and communication technologies (ICT) in order to formulate critical judgments on this basis, solve complex problems and carry out tasks in an innovative manner.	Is able to correctly analyze and interpret phenomena in the field of phonetics and phonology of the modern Polish language, is able to search, select, analyze, interpret and use phonetic and phonological information using various sources and methods.	[SU1] oral statement/conversation/discussion [SU2] presentation/project/paper/report [SU4] test/exam - oral or written
	[LOGJ5_U03] He has the ability to interpret, analyze the causes and course of linguistic and communicative processes and phenomena, substantively argue using his own views and those of other authors, formulate conclusions and create synthetic summaries using the appropriate terminology of linguistics, sociolinguistics and ethnolinguistics and medical sciences relevant to speech therapy.	Is able to independently acquire phonetic and phonological knowledge and use it to interpret specific linguistic facts in the norm and pathology, assess the patient's pronunciation and analyze the impact of pronunciation (normative, incorrect and pathological) on recording errors	[SU1] oral statement/conversation/discussion [SU3] text preparation/written work
	[LOGJ5_W20] Understands in depth the phonetic-phonological system of the Polish language, including knowledge of orthophonic norms and linguistic correctness.	Has in-depth knowledge of the phonetic and phonological system of the Polish language, including knowledge of orthophonic norms, focused on practical application.	[SW4] test/exam - oral or written [SW1] oral statement/conversation/discussion

Subject contents	Phonetic alphabet in Slavic and international versions (IPA). Phonological transcription of texts in the Slavic version. Basics of transcription in IPA. Recognizing sounds based on patterns. Sounds in the ontogeny of speech. The phenomenon of sound polymorphism and its importance in speech therapy practice. Dialectical productions of the so-called sounds three ranks. Phenomena of coarticulation. The phonetic transformation method and its application in speech therapy. Phonetic and phonological conditions of selected spelling errors.		
Prerequisites and co-requisites	No entry requirements.		
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	multimedial presentations	51.0%	50.0%
	tests	51.0%	50.0%
