	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		4.0		66.0	100
Subject objectives	Making students familiar with the translational foundations of translator's work, i.e. imparting knowledge of selected theoretical concepts of translation most closely related to the practical work of a translator; preparing students for the work of a translator, incl. sworn translator: imparting knowledge and skills in using tools helpful for translators (dictionaries, parallel texts, specialist literature, Internet, CAT); making students familiar with the principles of producing certified translations; raising awareness of the specific character of translating different types of texts.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[FGMU2_U03] They are able to apply advanced information and communication techniques, in particular for the analysis and presentation of linguistic and cultural data.	They are able to use advanced information and communication tools in the translation process (e.g. CAT tools, AI), in particular to search for, analyse and process linguistic and cultural data relevant to the translation, as well as to critically assess their usefulness and reliability.	[SU5] implementation of a problem task [SU6] demonstration of practical skills
	[FGMU2_W01] They know and thoroughly understand the subject matter and scope of research in German linguistics and literary studies as academic disciplines, including selected methodologies and terminology.	They have an in-depth knowledge and understanding of selected theories of translation, their terminology and research methodologies, and they understand their links to German linguistics and literary studies.	[SW4] test/exam - oral or written
	[FGMU2_U10] They are able to translate various types of texts in the Polish/German language pair, using their in-depth knowledge of translation studies and advanced skills in using specialised language.	They are able to translate texts of varying degrees of specialisation between Polish and German, selecting appropriate translation strategies, using specialist terminology correctly, and critically assessing the quality of their own and others' translations.	[SU3] text preparation/written work [SU5] implementation of a problem task
	[FGMU2_K06] They are willing to uphold the ethos of the profession, respect as well as to develop the principles of professional ethics and act to uphold these principles.	They are prepared to adhere to the code of professional ethics for translators (including sworn translators), to practise their profession responsibly and to engage in critical reflection on their own practice, as well as to work towards upholding professional standards in the translation industry.	[SK1] oral statement/conversation/discussion [SK8] observation of student's independent or team work
[FGMU2_U01] They are able to search for relevant sources and information, critically evaluate and analyse them, synthesise and interpret them, and use them to solve complex problems in the field of German linguistics and literary studies in an original way.	When carrying out a translation assignment, they are able to identify, critically analyse and assess the suitability of translation equivalents and specialist information from various sources; they take a particularly critical approach to information obtained from the internet; using tools from German linguistics and literary studies, they are able to carry out an accurate analysis of the text to be translated and apply original translation solutions.	[SU1] oral statement/conversation/discussion [SU5] implementation of a problem task	
Subject contents	Translation in linguistic and communicative/cultural perspectives. Text typology and translation. Dictionaries, parallel and professional texts and automatic translation tools in the translator's work. Translation strategies for selected professional texts (e.g. court and registry office documents, commercial, accounting and tax documents, civil law contracts, notarial deeds, etc.). Community interpreting; the relevance of expertise in interpreting. Sworn translator: specifics of the profession, professional ethics.		
Prerequisites and co-requisites	Knowledge of German and Polish at a sufficient level to achieve the desired results.		
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Longer written statement or answers to open questions on the subject content and the readings	51.0%	100.0%
