	<b>Number of study hours</b>	30		2.0		18.0	50
<b>Subject objectives</b>	The course prepares students to use academic theatre studies tools in their own analysis of theatrical performances. It emphasizes the specificity of theatre studies in relation to related academic disciplines. While artistic and aesthetic values that define the nature of theatre as an art form are central, social and cultural issues are treated as auxiliary. The course develops the ability to independently view and assess specific performances and phenomena, while also reinforcing the importance of applying academic paradigms in analysis and interpretation.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[ZIAL3_K06] They are prepared to engage in artistic and cultural life as recipients, managers, and artists, interacting with its diverse forms. They recognize the importance of the cultural heritage of the region, country, and Europe, and acknowledge their own responsibility in preserving them.
