Subject objectives	<p>In this course, we will focus on analyzing the major challenges facing the contemporary world. We will delve into diverse issues such as economic inequalities, environmental crises, discrimination, population migrations, and the ethical dilemmas associated with the development of artificial intelligence. The aim of the course is not only to provide theoretical knowledge but also to develop critical thinking skills and the ability to analyze complex phenomena in their international context.</p>						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[KULL3_K01] They are ready to critically evaluate his knowledge of culture and to recognize its value in solving cognitive and practical problems.	The student is ready to critically assess media and common-sense narratives about global challenges (e.g., migration, climate crisis) and recognize the value of in-depth, cultural studies analysis in understanding these complex phenomena.	[SK2] presentation/project/paper/report
	[KULL3_U01] They are able to formulate and solve unusual and complex problems in the field of cultural studies through the appropriate selection of information about culture and its critical evaluation, analysis, and synthesis.	The student can formulate research problems concerning complex contemporary challenges (e.g., ethical dilemmas of AI, social inequalities) and analyze their cultural, social, and ethical dimensions through the proper selection, critical assessment, and synthesis of information.	[SU2] presentation/project/paper/report
	[KULL3_W07] They have knowledge of the fundamental issues of the contemporary world from a cultural studies perspective, as well as of contemporary cultural life.	The student has knowledge of the fundamental problems of the contemporary world (including environmental crises, global inequalities, migration, the digital revolution, and AI) from a cultural studies and global perspective.	[SW2] presentation/project/paper/report
	[KULL3_W06] They have organized general knowledge of the social, philosophical, historical, and media contexts that form the foundation for reflection on culture.	The student has structured general knowledge of the social, philosophical, historical, and economic contexts (e.g., globalization, post-colonialism, capitalism) that form the basis for critical reflection on contemporary global challenges.	[SW2] presentation/project/paper/report
