

Subject card

Subject name and code	Microbiology - laboratory classes, PG_00192594						
Field of study	Water Management and Protection of Water Resources						
Date of commencement of studies	October 2026		Academic year of realisation of subject		2026/2027		
Education level	Bachelor's studies		Subject group		Obligatory subject group in the field of study Subject group related to practical vocational preparation		
Mode of study	full-time studies		Mode of delivery		at the university		
Year of study	1		Language of instruction		Polish		
Semester of study	2		ECTS credits		2.0		
Learning profile	practical		Assessment form		credit		
Conducting unit	Laboratory of Marine Biotechnology -> Department of Marine Biology and Biotechnology -> Faculty of Oceanography and Geography -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		dr Anna Toruńska-Sitarz				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	30.0	0.0	0.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		1.0		19.0	50
Subject objectives	Learning the basic principles of working in a microbiology laboratory, implementing microbiological methods and techniques; and basics of microorganism isolation, culture, and identification.						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[GWOZWL3-U02] The student can select and independently apply basic research techniques and tools, with adhering to established analytical procedures in the field of environmental research in water management, adequately to the considered research problem.		U_2 [K_U02] The student is able to select and independently apply basic research tools and techniques used in microbiology, appropriate to the research problem under consideration.		[SU3] text preparation/written work [SU4] test/exam - oral or written		
	[GWOZWL3-K05] The student has the ability take responsibility for the safety of their own work and that of others, dealing with emergencies, exercising caution in the laboratory and in the field, responsibility for entrusted equipment and apparatus.		K_1 [K_K05] The student is prepared to take responsibility for the safety of their own work and the work of others, to act appropriately in dangerous situations, to exercise caution in the microbiology laboratory, and to take responsibility for the equipment entrusted to them.		[SK1] oral statement/conversation/discussion [SK4] test/exam - oral or written		

Subject contents	1. Basic working principles in the microbiology laboratory.2. Methods of microbial isolation and culture.3. Identification of microorganisms based on classical and modern methods.4. Quantitative analysis of aquatic microorganisms.5. Bacteriological water analysis.		
Prerequisites and co-requisites	none		
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Practical assessment	51.0%	20.0%
	Short tests	51.0%	60.0%
	Report	51.0%	20.0%
Recommended reading	Basic literature	Script prepared by the Lecturer.	
	Supplementary literature	Różalski A., Ćwiczenia z mikrobiologii ogólnej. Skrypt dla studentów biologii, Wydawnictwo Uniwersytetu Łódzkiego; Mierzejewska J., Chreptowicz K., Mikrobiologia ogólna i przemysłowa. Ćwiczenia laboratoryjne, Oficyna Wydawnicza Politechniki Warszawskiej.
