

Subject card

Subject name and code	Architectural and urban conditions of spatial management, PG_00196147						
Field of study	Spatial Management						
Date of commencement of studies	October 2026	Academic year of realisation of subject			2027/2028		
Education level	Bachelor's studies	Subject group			Obligatory subject group in the field of study Subject group related to scientific research in the field of study		
Mode of study	full-time studies	Mode of delivery			at the university		
Year of study	2	Language of instruction			Polish		
Semester of study	3	ECTS credits			4.0		
Learning profile	academic	Assessment form			exam		
Conducting unit	Division of Landscape and Environmental Studies -> Institute of Socio-Economic Geography and Spatial Management -> Faculty of Social Sciences -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		dr inż. Alicja Zawadzka				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	60.0	0.0	15.0	0.0	0.0	75
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	75		5.0		20.0	100
Subject objectives	<p>Cognitive purpose:</p> <p>(1) To learn the principles of spatial planning at the national, regional and local level in Poland</p> <p>(2) To acquire knowledge of urban processes and changes taking place in urban areas</p> <p>Practical goal:</p> <p>(1) To master the forms, methods and tools of spatial planning and to master the specialised language for defending a proposed solution to a spatial problem</p> <p>(2) To acquire basic skills of developing directions for strategic and spatial urban development of urban spaces</p>						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[GPL3_W02] knows problems, theories and trends in spatial management, taking into account aspects of the natural environment; understands their theoretical and practical significance	identifies basic problems, theories and trends in spatial management, and recognises their theoretical and practical significance	[SW4] test/exam - oral or written [SW2] presentation/project/paper/report
	[GPL3_K06] is ready to care for the achievements and traditions of the profession, and comply with the principles of professional ethics by themselves and to demand that from others	is oriented towards solving spatial problems in accordance with the acquis and tradition of the urban planning profession and professional ethics.	[SK2] presentation/project/paper/report [SK4] test/exam - oral or written
	[GPL3_U05] selects the appropriate spectrum of legal acts and applies appropriate formal and legal procedures in the field of spatial management	chooses how to use the basic spectrum of legal acts and applies the appropriate formal and legal procedures to land-use issues	[SU2] presentation/project/paper/report [SU4] test/exam - oral or written
	[GPL3_U06] uses specialist language in a debate with specialists in the field of spatial planning and management	uses specialist language to defend a proposed solution to a spatial problem	[SU2] presentation/project/paper/report [SU4] test/exam - oral or written
	[GPL3_U08] performs complex research tasks or demonstrates expertise in the field of spatial management under the guidance of a scientific supervisor, alone and in a team, and presents the results of the research in a written and oral form in Polish and in a foreign language	designs solutions to spatial management problems using an interdisciplinary approach and in accordance with the principles of sustainable development	[SU2] presentation/project/paper/report [SU4] test/exam - oral or written
	[GPL3_W03] knows at an advanced level the concept of sustainable development and spatial order, and understands their importance for spatial management	recognises the interdisciplinary nature of spatial management and the need for multidimensional approaches in spatial policy	[SW4] test/exam - oral or written [SW2] presentation/project/paper/report
	[GPL3_W04] knows and understands at an advanced level, the aims and conditions of using basic methods of quantitative analysis and interpretation of spatial processes and phenomena	identifies, at a basic level, forms, methods and tools for land-use planning	[SW4] test/exam - oral or written [SW2] presentation/project/paper/report

Subject contents	<p>A. Problems of the lecture:</p> <ol style="list-style-type: none"> 1) Spatial governance 2) Spatial planning at the national level in Poland 3) Spatial planning at the regional level in Poland 4) Spatial planning at the local level in Poland 5) Definitions and objectives of city planning; urban space development as an element of urban planning 6) Economic and functional-spatial structure of the city 7) Network systems and elements of transport, technical and social infrastructure in the city 8) Traditional and contemporary public spaces of Cittaslow cities 9) Protection of monuments 10) Development of riverside spaces (waterfronts) <p>B. Exercise topics:</p> <ol style="list-style-type: none"> 1) Protection of monuments 2) Concepts of social space in the city 3) Woonerf 4) Green areas 5) Riparian area development 		
Prerequisites and co-requisites	Knowledge of the subjects Socio-cultural foundations of spatial planning and Architectural and urban planning foundations of spatial planning		
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	lecture	51.0%	50.0%
	exercise	51.0%	50.0%
