University of Gdańsk

Subject card

Subject name and code	Public presentation of Master's thesis, PG_00197332		
Field of study	Biotechnology		
Date of commencement of studies	October 2026	Academic year of realisation of subject	2027/2028
Education level	Master's studies	Subject group	Obligatory subject group in the field of study
Mode of study	full-time studies	Mode of delivery	at the university
Year of study	2	Language of instruction	Polish
Semester of study	4	ECTS credits	4.0
Learning profile	academic	Assessment form	credit
Conducting unit	UG Institute of Biotechnology -> Intercollegiate Faculty of Biotechnology UG-MUG -> Rector		
Name and surname of lecturer (lecturers)	Subject supervisor	dr hab. Mariusz Grinholc, prof. UG	
	Teachers

E-learning hours included: 0.0

Learning activity and number of study hours

Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours	Self-study	SUM
Number of study hours	15	15.0	70.0	100

Subject objectives

The aim of the course is for the student to present the assumptions and results of the master's project, in the form of a short multimedia presentation in English.
In the course of the course, the student demonstrates sufficient knowledge of English to present an oral short study of the issues of the master's project.
In the course of the course, the student acquires the ability to use the English scientific language efficiently, uses specialised terminology and conceptual apparatus appropriate to the subject of the conducted research.

Learning outcomes

Course outcome	Subject outcome	Method of verification
[BIOTECHMU2_U07] The graduate is able to prepare and present in Polish and/or English an oral presentation covering detailed issues in the field of biotechnology using scientific language, including specialist terminology and conceptual apparatus; conduct discussions.	The student presents a multimedia presentation in English of the results of his/her master's thesis research, prepared in cooperation with the supervisor and the instructor of the thesis seminar, using appropriate scientific language and specialized terminology appropriate to biotechnology and medical sciences.	[SU1] oral statement/conversation/ discussion [SU2] presentation/project/paper/ report
[BIOTECHMU2_U04] The graduate possesses the ability to proficiently use scientific information, including English, regarding biotechnology; critically analyses and selects information; uses electronic sources; has the ability to use appropriate databases.	In preparation for presenting the results of their master's thesis, the student searches for and selects scientific literature in the field of biotechnology, using databases and other electronic sources, including English-language scientific publications. He/she critically analyzes scientific content, assessing the credibility of the sources, research methodology, and the substantive value of the publications.	[SU1] oral statement/conversation/ discussion [SU2] presentation/project/paper/ report

Subject contents
