

Subject card

Subject name and code	Public presentation of Master's thesis, PG_00197332						
Field of study	Biotechnology						
Date of commencement of studies	October 2026	Academic year of realisation of subject				2027/2028	
Education level	Master's studies	Subject group				Obligatory subject group in the field of study	
Mode of study	full-time studies	Mode of delivery				at the university	
Year of study	2	Language of instruction				Polish	
Semester of study	4	ECTS credits				4.0	
Learning profile	academic	Assessment form				credit	
Conducting unit	UG Institute of Biotechnology -> Intercollegiate Faculty of Biotechnology UG-MUG -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		dr hab. Mariusz Grinholc				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	15.0	0.0	0.0	0.0	15
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	15		15.0		70.0	100
Subject objectives	<p>The aim of the course is for the student to present the assumptions and results of the master's project, in the form of a short multimedia presentation in English.</p> <p>In the course of the course, the student demonstrates sufficient knowledge of English to present an oral short study of the issues of the master's project.</p> <p>In the course of the course, the student acquires the ability to use the English scientific language efficiently, uses specialised terminology and conceptual apparatus appropriate to the subject of the conducted research.</p>						
Learning outcomes	Course outcome		Subject outcome			Method of verification	
	[BIOTECHMU2_U07] The graduate is able to prepare and present in Polish and/or English an oral presentation covering detailed issues in the field of biotechnology using scientific language, including specialist terminology and conceptual apparatus; conduct discussions.		The student presents a multimedia presentation in English of the results of his/her master's thesis research, prepared in cooperation with the supervisor and the instructor of the thesis seminar, using appropriate scientific language and specialized terminology appropriate to biotechnology and medical sciences.			[SU1] oral statement/conversation/discussion [SU2] presentation/project/paper/report	
	[BIOTECHMU2_U04] The graduate possesses the ability to proficiently use scientific information, including English, regarding biotechnology; critically analyses and selects information; uses electronic sources; has the ability to use appropriate databases.		In preparation for presenting the results of their master's thesis, the student searches for and selects scientific literature in the field of biotechnology, using databases and other electronic sources, including English-language scientific publications. He/she critically analyzes scientific content, assessing the credibility of the sources, research methodology, and the substantive value of the publications.			[SU1] oral statement/conversation/discussion [SU2] presentation/project/paper/report	
Subject contents	The programme content will be related to the ongoing master's projects						

Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Presentation of the thesis	51.0%	100.0%
Recommended reading	Basic literature	Academic publications on MSc projects, including publications by the team in which the MSc project is carried out.	
	Supplementary literature	None	
	eResources addresses		
Example issues/ example questions/ tasks being completed			
Work placement	Not applicable
