

Subject card

Subject name and code	Regional Field Classes I Coasts and Lake Districts Ia, PG_00198952						
Field of study	Geography						
Date of commencement of studies	October 2026	Academic year of realisation of subject			2026/2027		
Education level	Bachelor's studies	Subject group			Obligatory subject group in the field of study Optional subject group Subject group related to scientific research in the field of study		
Mode of study	full-time studies	Mode of delivery			at the university		
Year of study	1	Language of instruction			Polish		
Semester of study	2	ECTS credits			4.0		
Learning profile	academic	Assessment form			credit		
Conducting unit	Laboratory of Limnology -> Department of Hydrology -> Faculty of Oceanography and Geography -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		dr Kamil Nowiński				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	42.0	0.0	0.0	0.0	42
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	42		4.0		54.0	100
Subject objectives	<p>Acquaintance with the diversity of the natural environment of the central and western parts of the South Baltic Coast and the Pomeranian Lake District, with an emphasis on unique landscape features characteristic of the region.</p> <p>Presentation of examples illustrating the influence of environmental conditions on human activity, as well as landscape changes resulting from human impact.</p> <p>Demonstration of the effects of humanenvironment interactions in historical and contemporary contexts, as well as from the perspective of future change.</p>						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[GEOGRL3-U05] can use scientific language and express opinions and discuss topics related to geography in Polish and a foreign language	Is able to express opinions and engage in discussion on geographical topics using appropriate scientific terminology	[SU1] oral statement/conversation/discussion [SU2] presentation/project/paper/report
	[GEOGRL3-U03] can plan and conduct, independently and as part of a team, simple research in the field of geography under the supervision of a scientific advisor, based on the necessary information from professional literature and other sources	Is able to prepare and present a geographical topic and actively participate in a substantive academic discussion during field classes	[SU1] oral statement/conversation/discussion [SU2] presentation/project/paper/report
		Is familiar with and understands the socio-economic transformations occurring in northern-western Poland	[SW1] oral statement/conversation/discussion [SW2] presentation/project/paper/report
	Is familiar with methods of source material (literature) inquiry that enable the collection of information about the environment	[SW1] oral statement/conversation/discussion [SW2] presentation/project/paper/report	
Subject contents	<p>The origin and geomorphology of the Baltic Sea Coasts and the South Baltic Lake District. Climate characteristics of the South Baltic Coasts and the Pomeranian Lake District. Characteristic hydrographic elements: coastal rivers, coastal lakes, lake diversity, springs and wetlands in north-western Poland. Soil cover and main plant communities of the South Baltic Coasts and the Pomeranian Lake District. Tourist attractions of the South Baltic Coasts and the Pomeranian Lake District. National parks and nature reserves in the central and western parts of the South Baltic Coasts and the Pomeranian Lake District. Methods of coastal protection. Methods of protecting lake and peat bog ecosystems. Wind energy and its use in north-western Poland. History, current state and prospects of the Polish maritime economy. History, current state and prospects of human economy in lake districts. Cultural heritage of the central and western parts of the South Baltic Coasts and the Pomeranian Lake District.</p>		
Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Test	51.0%	20.0%
	Preparation and presentation of a poster (accuracy and completeness of the content, clarity and fluency of delivery, graphical quality of the presentation)	51.0%	50.0%
	Active participation in field exercises	100.0%	30.0%
Recommended reading	Basic literature	Kondracki J., 2002, Geography of Poland. Physical-geographical mesoregions.. PWN, Warszawa, 340 s.	
		Own notes made during the field exercises.	
	Supplementary literature	Specific items of detailed literature are indicated by the instructors in accordance with the topic of the poster being prepared.	
	eResources addresses		

Example issues/ example questions/ tasks being completed	
Work placement	Not applicable
