

Subject card

Subject name and code	Market Research and Analysis for Logistics, PG_00199359						
Field of study	Economics						
Date of commencement of studies	October 2026	Academic year of realisation of subject			2026/2027		
Education level	Master's studies	Subject group			Obligatory subject group in the field of study Optional subject group Subject group related to scientific research in the field of study		
Mode of study	full-time studies	Mode of delivery			at the university		
Year of study	1	Language of instruction			Polish		
Semester of study	2	ECTS credits			3.0		
Learning profile	academic	Assessment form			exam		
Conducting unit	Department of Transport Market -> Faculty of Economics -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		dr hab. Krzysztof Grzelec				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	30.0	0.0	0.0	30.0	0.0	60
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	60		0.0		15.0	75
Subject objectives	The student learns the methodology of market and marketing research for the needs of logistics companies. The student acquires the ability to design and conduct marketing and market research. The student understands the process of marketing and market research and the impact of information on the management decisions of logistics companies. The student acquires the ability to interpret research results and present the results. The student learns the principles of conducting transport & logistics market analysis. The student acquires the ability to independently assess the logistics market.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[EKONMU2_U03] can analyse causes and course of economic and social processes and phenomena, formulate his/her own opinions on the subject, construct research hypotheses, and select and apply methods of their verification	Ability to design marketing and market research.	[SU1] oral statement/conversation/discussion [SU2] presentation/project/paper/report [SU4] test/exam - oral or written
	[EKONMU2_U02] can use acquired knowledge to describe and analyse the causes and course of economic and social processes and phenomena, and can formulate his/her own opinions and critically select data and analysis methods based on the achievements of economic and social sciences	Ability to select appropriate methods and tools for marketing and market research in relation to the transport and logistics sector.	[SU1] oral statement/conversation/discussion [SU2] presentation/project/paper/report
	[EKONMU2_U04] can forecast and model complex economic and social processes using quantitative and qualitative methods and tools developed by economic sciences (including statistics and econometrics)	Ability to use marketing and market research tools and methods.	[SU1] oral statement/conversation/discussion [SU2] presentation/project/paper/report
	[EKONMU2_K05] correctly identifies, diagnoses and solves advanced dilemmas and alternative solutions related to the profession	Ability to identify, diagnose and resolve dilemmas related to performing a profession using transport and logistics market research tools.	[SK1] oral statement/conversation/discussion
	[EKONMU2_W08] has an in-depth knowledge of processes occurring in enterprises and economic organisations and with related areas, as well as of processes of change in public institutions; knows methods of research on the regularities governing these changes, taking into account the influence of external stakeholders on them	Ability to analyze processes taking place in transport and logistics enterprises and their environment using marketing and market research tools and methods.	[SW1] oral statement/conversation/discussion [SW2] presentation/project/paper/report
	[EKONMU2_W03] has a knowledge of relations between economic phenomena, entities and organisations as well as public institutions functioning in the national, international and intercultural spheres	The ability to define and solve problems from an interdisciplinary perspective in relation to the transport and logistics market.	[SW1] oral statement/conversation/discussion
	[EKONMU2_U01] can creatively interpret and explain economic and social phenomena and relations between them, using acquired knowledge of economics, finance and management sciences	Ability to interpret the results of marketing and market research in relation to the transport and logistics sector.	[SU1] oral statement/conversation/discussion [SU2] presentation/project/paper/report [SU4] test/exam - oral or written
	[EKONMU2_W06] has an in-depth understanding of statistical and econometric methods and tools for describing and modelling macro- and microeconomic economic structures and public institutions, as well as the processes taking place within them.	Ability to identify appropriate statistical methods for a specific study.	[SW1] oral statement/conversation/discussion
Subject contents	<p>1) Designing marketing and market research for the needs of logistics companies [Specifications of market and marketing research. Information needs of enterprises. Sampling]2) Instruments used in research for logistics purposes [Construction of measurement tools. Questionnaire structure]3) Data acquisition methods [Interviews. Surveys Other methods]4) Analysis of the market environment of logistics enterprises [Specific nature of the market environment of logistics enterprises. AHP method. Scenario methods]5) Market analysis for logistics [Market size assessment. Market capacity assessment. Market competition assessment]6) Analysis of the market situation of a logistics company [Assessment of the company's market position. Assessment of the enterprise's competitiveness. Assessment of the enterprise's development potential]7) Study of the impact of marketing instruments on the market [Service study. Price research. Distribution study. Promotion study]</p>		

Prerequisites and co-requisites	Knowledge of basic economic issues, knowledge of basic marketing issues.		
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Project	60.0%	100.0%
