Understand the importance of project management in the strategic and operational context of the company. 						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[EKONMU2_U07] can independently propose solutions to complex economic or social problems, select methods of analysis and conduct conclusive procedures in this respect	The student is able to perform conclusive procedures such as risk analysis, stakeholder analysis, scheduling and resource allocation, which are key to effective project management	[SU2] presentation/project/paper/report
	[EKONMU2_K01] recognises the importance of knowledge in the field of economics in the process of identifying and solving economic problems and of consulting experts when having difficulties in solving them independently	The student recognizes and understands the critical importance of economic knowledge in identifying economic problems, especially in the context of project implementation in an enterprise. The student is able to integrate economic knowledge with project management methods and tools, which allows for more effective planning, implementation and control of projects. The student recognizes the need to consult with experts when encountering difficulties in solving complex economic problems related to a project on their own, which shows an understanding of their own limitations and the value of expertise.	[SK1] oral statement/conversation/discussion [SK2] presentation/project/paper/report [SK5] implementation of a problem task
[EKONMU2_W07] has an in-depth knowledge of economic and financial principles governing the functioning and management of economic entities and organisations, as well as of systems of legal, organisational, professional, moral and ethical norms and rules organising public structures and institutions, both in the national and international spheres	The student is able to effectively plan and implement projects in enterprises, taking into account economic and financial principles, legal norms and ethical rules.	[SW1] oral statement/conversation/discussion [SW2] presentation/project/paper/report
