

Subject card

Subject name and code	Seminar II, PG_00199596						
Field of study	Oceanography						
Date of commencement of studies	October 2026	Academic year of realisation of subject			2028/2029		
Education level	Bachelor's studies	Subject group			Obligatory subject group in the field of study Optional subject group Subject group related to scientific research in the field of study		
Mode of study	full-time studies	Mode of delivery			at the university		
Year of study	3	Language of instruction			Polish		
Semester of study	6	ECTS credits			2.0		
Learning profile	academic	Assessment form			credit		
Conducting unit	Faculty of Oceanography and Geography -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		dr hab. Katarzyna Łukawska-Matuszewska				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	0.0	15.0	15
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	15		2.0		33.0	50
Subject objectives	<ul style="list-style-type: none"> Supporting the student in independently deepening their knowledge on the topic selected for the thesis. Improving skills in presenting the results of independent work and participating in discussions using scientific language. Preparing the student for the bachelor's exam. 						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[OCEANL3-K03] is ready to exercise caution and criticism in accepting information from scientific literature, the Internet and other media relating to natural sciences	Is ready to carefully and critically use information from scientific literature, the Internet and other media relating to geological, physical and chemical oceanography.	[SK2] presentation/project/paper/report
	[OCEANL3-W04] has an advanced understanding of issues and research problems in oceanography, and recognizes their connection with other scientific disciplines	Has an advanced knowledge and understanding of research issues in geological, physical or chemical oceanography and is aware of their connections with other disciplines of science.	[SW1] oral statement/conversation/discussion [SW2] presentation/project/paper/report
	[OCEANL3-W03] has an advanced understanding of the relationships between living and non-living components of aquatic environments, and is aware of the complex nature, intricacy, and natural variability of these environments	Has an advanced understanding of the relationships between living and non-living components of the marine environment and is aware of the complex nature and natural variability of the marine environment.	[SW1] oral statement/conversation/discussion [SW2] presentation/project/paper/report
	[OCEANL3-U12] is able to systematically expand and update oceanographic knowledge and enhance professional qualifications	Is able to systematically expand and update knowledge in the field of geological, physical or chemical oceanography.	[SU2] presentation/project/paper/report [SU8] observation of student's independent or team work
	[OCEANL3-U08] is able to prepare written papers, oral presentations, and presentations in the field of oceanography, and to engage in discussions on oceanographic issues (in Polish and a selected foreign language)	Can prepare written assignments, oral speeches and presentations in the field of geological, physical or chemical oceanography, and discuss topics related to oceanography (in Polish and English).	[SU2] presentation/project/paper/report
[OCEANL3-K02] is ready to adhere to the principles of professional ethics and academic integrity	Is ready to uphold the principles of intellectual honesty and professional ethics.	[SK1] oral statement/conversation/discussion [SK8] observation of student's independent or team work	
Subject contents	Selected problems of the undertaken research topic, presentation methods of the obtained results and their discussion.		
Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Preparation and presentation of presentations on the bachelor's thesis being prepared	51.0%	90.0%
	Participation in the discussion	51.0%	10.0%
Recommended reading	Basic literature	The literature is selected individually for the student, in accordance with the guidelines of the bachelor's thesis supervisor.	
	Supplementary literature	The literature is selected individually for the student, in accordance with the guidelines of the bachelor's thesis supervisor.	
	eResources addresses		
Example issues/ example questions/ tasks being completed	<ul style="list-style-type: none"> Studying literature and reviewing online sources, as well as verifying the collected information. Preparing a multimedia presentation. 		
Work placement	Not applicable		

Document generated electronically. Does not require a seal or signature.
