Subject objectives	The primary aim of the course is to familiarise students with the psychological aspects of marketing communication and the basic cognitive psychological processes that influence the reception and planning of marketing communication.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[MSGMU2_K04] is ready to think and act in an entrepreneurial manner; adapts to new situations and conditions; undertakes challenges of creative thinking; acquires resilience to failures; assesses risks and threats and finds ways of counteracting their effects	The student approaches assigned tasks in an entrepreneurial and creative manner, is open to discussing the presented task results and thus acquires resilience in the face of criticism and failure.	[SK5] implementation of a problem task
	[MSGMU2_U05] can apply the rules and standards of business activity in order to solve complex and atypical problems arising from international economic cooperation	Students will be able to use the psychological aspects of consumer decisions and the learned psychological basis of techniques used in marketing communication to analyse complex problems in the field of marketing.	[SU4] test/exam - oral or written [SU5] implementation of a problem task
	[MSGMU2_U12] can manage teamwork, cooperate and work in a team, in particular an international one, taking a leading role in it	The student is able to interact in a small group as part of the tasks. The student organizes the preparation of marketing projects that incorporate psychological knowledge. The research project development process (including methodological assumptions and the construction of research tools) is discussed and approved during consultations with the course instructor.	[SU5] implementation of a problem task
	[MSGMU2_W14] has an in-depth knowledge of the human being as an individual making economic decisions, acting in social structures and organisational units, in particular in enterprises operating on the international market	The student has an extended knowledge of the human being and understands the factors (psychological determinants) affecting the consumer decision-making process.	[SW4] test/exam - oral or written
	[MSGMU2_W09] has a knowledge of selected areas of the functioning of a modern enterprise in the national and international environment; understands the conditions, principles and consequences of decisions taken in its structures aiming at the development, and the dependencies among enterprises on the international market	The student has an in-depth knowledge of the contemporary enterprise, in particular the role of marketing in the process of communication with the domestic and international consumer, in this respect the student identifies opportunities to apply psychological concepts in marketing to shape marketing communication.	[SW4] test/exam - oral or written
