

Subject card

Subject name and code	Academic English, PG_00199772						
Field of study	Physical geography and geoinformation						
Date of commencement of studies	October 2026	Academic year of realisation of subject			2027/2028		
Education level	Master's studies	Subject group			Obligatory subject group in the field of study Humanistic-social subject group		
Mode of study	full-time studies	Mode of delivery			at the university		
Year of study	2	Language of instruction			English		
Semester of study	3	ECTS credits			3.0		
Learning profile	academic	Assessment form			credit		
Conducting unit	Zespół lektorów języka angielskiego -> Foreign Languages Centre -> Vice-Rector for Education -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		mgr Paweł Kwiatkowski				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	30.0	0.0	0.0	0.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		2.0		43.0	75
Subject objectives	Developing student's language skills: speaking, reading, writing, listening so that they reflect learner's academic, professional and personal needs, as well as job market requirements.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	<p>[GFGMU2_U02] is able to precisely and appropriately use terminology in the field of physical geography and geoinformation in oral statements and written works</p>	<p>1. Knowledge - knows the advanced terminology and concepts of the studied major and related fields in a foreign language</p> <p>2. Skills - has the linguistic skills appropriate to the field of study, in accordance with the requirements specified for level B2+ of the Common European Framework of Reference for Languages - has the in-depth ability to prepare a variety of written compositions in a foreign language relevant to the field of study and related to his/her professional work, including those addressed to different audiences - has the in-depth ability to prepare specialist oral presentations, in a foreign language, on subjects related to his/her field of study - reads scientific texts in English with comprehension - can translate a simple text connected with the subject-matter of the studied major and professional work independently - can independently acquire knowledge and develop professional skills using a variety of sources in English and modern technology</p> <p>3. Social competences - has an in-depth awareness of his/her knowledge and skills and understands the need for lifelong learning - is aware of the need to broaden his/her professional competences and qualifications, as well as to improve his/her skills, he/she is able to determine independently his/her own development and education path to an advanced degree</p>	<p>[SU1] oral statement/conversation/discussion [SU2] presentation/project/paper/report</p>

	Course outcome	Subject outcome	Method of verification
	<p>[GFGMU2_U08] is able to apply practically English in the field of physical geography and geoinformation in accordance with the requirements specified for level B2+ of the Common European Framework of Reference for Languages</p>	<p>1. Knowledge - knows the advanced terminology and concepts of the studied major and related fields in a foreign language</p> <p>2. Skills - has the linguistic skills appropriate to the field of study, in accordance with the requirements specified for level B2+ of the Common European Framework of Reference for Languages - has the in-depth ability to prepare a variety of written compositions in a foreign language relevant to the field of study and related to his/her professional work, including those addressed to different audiences - has the in-depth ability to prepare specialist oral presentations, in a foreign language, on subjects related to his/her field of study - reads scientific texts in English with comprehension - can translate a simple text connected with the subject-matter of the studied major and professional work independently - can independently acquire knowledge and develop professional skills using a variety of sources in English and modern technology</p> <p>3. Social competences - has an in-depth awareness of his/her knowledge and skills and understands the need for lifelong learning - is aware of the need to broaden his/her professional competences and qualifications, as well as to improve his/her skills, he/she is able to determine independently his/her own development and education path to an advanced degree</p>	<p>[SU1] oral statement/conversation/discussion [SU2] presentation/project/paper/report [SU4] test/exam - oral or written [SU6] demonstration of practical skills [SU8] observation of student's independent or team work</p>

	Course outcome	Subject outcome	Method of verification
	<p>[GFGMU2_K01] is ready to critically assess the knowledge obtained in the field of Earth and environmental sciences, particularly physical geography and geoinformation, its completion and verification through further critical analysis of scientific literature</p>	<p>1. Knowledge - knows the advanced terminology and concepts of the studied major and related fields in a foreign language</p> <p>2. Skills - has the linguistic skills appropriate to the field of study, in accordance with the requirements specified for level B2+ of the Common European Framework of Reference for Languages - has the in-depth ability to prepare a variety of written compositions in a foreign language relevant to the field of study and related to his/her professional work, including those addressed to different audiences - has the in-depth ability to prepare specialist oral presentations, in a foreign language, on subjects related to his/her field of study - reads scientific texts in English with comprehension - can translate a simple text connected with the subject-matter of the studied major and professional work independently - can independently acquire knowledge and develop professional skills using a variety of sources in English and modern technology</p> <p>3. Social competences - has an in-depth awareness of his/her knowledge and skills and understands the need for lifelong learning - is aware of the need to broaden his/her professional competences and qualifications, as well as to improve his/her skills, he/she is able to determine independently his/her own development and education path to an advanced degree</p>	<p>[SK1] oral statement/conversation/discussion</p>

	Course outcome	Subject outcome	Method of verification
	<p>[GFGMU2_K03] is ready to accepting responsibility for group work assuming various roles in it, participating in preparation of scientific projects, taking responsibility for the equipment and safety rules, active developing of professional competences and knowledge in Earth and environmental sciences and geoinformation, including interdisciplinarity, as well as developing the principles of professional ethics, respecting copyright rules</p>	<p>1. Knowledge - knows the advanced terminology and concepts of the studied major and related fields in a foreign language</p> <p>2. Skills - has the linguistic skills appropriate to the field of study, in accordance with the requirements specified for level B2+ of the Common European Framework of Reference for Languages - has the in-depth ability to prepare a variety of written compositions in a foreign language relevant to the field of study and related to his/her professional work, including those addressed to different audiences - has the in-depth ability to prepare specialist oral presentations, in a foreign language, on subjects related to his/her field of study - reads scientific texts in English with comprehension - can translate a simple text connected with the subject-matter of the studied major and professional work independently - can independently acquire knowledge and develop professional skills using a variety of sources in English and modern technology</p> <p>3. Social competences - has an in-depth awareness of his/her knowledge and skills and understands the need for lifelong learning - is aware of the need to broaden his/her professional competences and qualifications, as well as to improve his/her skills, he/she is able to determine independently his/her own development and education path to an advanced degree</p>	<p>[SK1] oral statement/conversation/discussion [SK2] presentation/project/paper/report [SK3] text preparation/written work [SK4] test/exam - oral or written [SK5] implementation of a problem task [SK6] demonstration of practical skills [SK7] entries and opinions in the internship diary [SK8] observation of student's independent or team work</p>

	Course outcome	Subject outcome	Method of verification
	[GFGMU2_W06] knows and understands in a deepened extent conceptual apparatus of physical geography and geoinformation, selected Polish and foreign literature on physical geography and principles of preparing and editing scientific texts	<p>1. Knowledge</p> <ul style="list-style-type: none"> - knows the advanced terminology and concepts of the studied major and related fields in a foreign language <p>2. Skills</p> <ul style="list-style-type: none"> - has the linguistic skills appropriate to the field of study, in accordance with the requirements specified for level B2+ of the Common European Framework of Reference for Languages - has the in-depth ability to prepare a variety of written compositions in a foreign language relevant to the field of study and related to his/her professional work, including those addressed to different audiences - has the in-depth ability to prepare specialist oral presentations, in a foreign language, on subjects related to his/her field of study - reads scientific texts in English with comprehension - can translate a simple text connected with the subject-matter of the studied major and professional work independently - can independently acquire knowledge and develop professional skills using a variety of sources in English and modern technology <p>3.
