

**Subject card**

<b>Subject name and code</b>	Economy and Environment, PG_00199855						
<b>Field of study</b>	Economics						
<b>Date of commencement of studies</b>	October 2026	<b>Academic year of realisation of subject</b>				2027/2028	
<b>Education level</b>	Bachelor's studies	<b>Subject group</b>				Obligatory subject group in the field of study Optional subject group	
<b>Mode of study</b>	part-time studies	<b>Mode of delivery</b>				at the university	
<b>Year of study</b>	2	<b>Language of instruction</b>				Polish	
<b>Semester of study</b>	3	<b>ECTS credits</b>				2.0	
<b>Learning profile</b>	academic	<b>Assessment form</b>				exam	
<b>Conducting unit</b>							
<b>Name and surname of lecturer (lecturers)</b>	<b>Subject supervisor</b>		dr hab. Barbara Pawłowska				
	<b>Teachers</b>						
<b>Lesson types</b>	<b>Lesson type</b>	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	<b>Number of study hours</b>	14.0	0.0	0.0	0.0	0.0	14
	E-learning hours included: 0.0						
<b>Learning activity and number of study hours</b>	<b>Learning activity</b>	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	<b>Number of study hours</b>	14		4.0		32.0	50
<b>Subject objectives</b>	As a result of completing the course, the student develops the ability to view economic processes from the perspective of protecting and rationally using natural capital, understands the principle of sustainable development, and can identify tools that facilitate steering the economy towards this developmental path. He takes social costs and benefits into account in everyday decisions.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[EKONL3_U15] is able to independently supplement and improve his acquired knowledge and skills in the field of economics, is open to new concepts and solutions, and demonstrates a willingness to engage in lifelong learning and to cooperate and exchange knowledge with other participants in the learning process.	The student is capable of independently supplementing and improving their knowledge and skills in the field of sustainable development economics. They are open to new ideas and techniques, inclined to learn through various methods, and eager to interact with other participants in the learning process to solve identified problems.	[SU1] oral statement/conversation/discussion [SU4] test/exam - oral or written
	[EKONL3_K02] is aware of the level of knowledge in the field of economics and understands the need to deepen and update this knowledge throughout life	The student is aware of their level of knowledge in sustainable development economics and understands the need to continuously deepen and update this knowledge throughout their life.	[SK1] oral statement/conversation/discussion [SK4] test/exam - oral or written
	[EKONL3_K06] is willing to be guided in his professional life by business ethics and corporate social responsibility, to respect others and to be loyal to his employer	The student is prepared to guide their professional life by business ethics and corporate social responsibility, with a commitment to respecting the natural environment.
