

Subject card

Subject name and code	Social Psychology, PG_00199856						
Field of study	Economics						
Date of commencement of studies	October 2026	Academic year of realisation of subject				2027/2028	
Education level	Bachelor's studies	Subject group				Obligatory subject group in the field of study Optional subject group	
Mode of study	part-time studies	Mode of delivery				at the university	
Year of study	2	Language of instruction				Polish	
Semester of study	3	ECTS credits				2.0	
Learning profile	academic	Assessment form				exam	
Conducting unit							
Name and surname of lecturer (lecturers)	Subject supervisor		dr Bożena Klusek-Wojciszke				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	14.0	0.0	0.0	0.0	0.0	14
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	14		4.0		32.0	50
Subject objectives	The aim of the course is to familiarize students with issues from social psychology focusing on the issue of exerting social influence. In other words, allowing them to answer the question: how does what one person does, thinks and feels affect what another person does, thinks and feels?						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[EKONL3_W01] has advanced knowledge of the nature of social sciences, their place in the system of sciences, knows the role of economic sciences in this system and uses universal economic terminology	The student possesses structured knowledge of social psychology as a discipline within the social sciences, understands its place within the system of sciences, and can identify links between social psychology and economics. They use basic terminology from both fields to analyze individual and group behavior in social and economic contexts.	[SW4] test/exam - oral or written
	[EKONL3_K06] is willing to be guided in his professional life by business ethics and corporate social responsibility, to respect others and to be loyal to his employer	The student understands the psychological mechanisms that influence individual and group behavior in the context of professional work and is able to relate them to the principles of ethics and corporate social responsibility. They demonstrate an attitude of respect towards others, can identify situations that require loyalty and integrity toward the employer, and are prepared to make decisions aligned with the principles of social responsibility.	[SK4] test/exam - oral or written
	[EKONL3_U13] be able to interact and work in a group (including an international one), assuming various roles within it	The student is able to work effectively in a team, understanding the psychological mechanisms of group functioning and the dynamics of social roles. They demonstrate the ability to adapt to various team roles, including in intercultural contexts, and can support effective communication and cooperation within a group.	[SU4] test/exam - oral or written
	[EKONL3_U15] is able to independently supplement and improve his acquired knowledge and skills in the field of economics, is open to new concepts and solutions, and demonstrates a willingness to engage in lifelong learning and to cooperate and exchange knowledge with other participants in the learning process.	The student is able to independently broaden their knowledge of social psychology and develop social skills relevant to professional practice. They demonstrate openness to new psychological concepts and techniques and actively engage in the learning process, participating in the exchange of knowledge and experiences with other students.	[SU4] test/exam - oral or written
	[EKONL3_W05] has a knowledge of man as a subject who creates social structures and the principles of their functioning and of his action in these structures, knows well the motives of human economic decision-making	The student has in-depth knowledge of the psychological mechanisms underlying individual functioning within social structures. They understand how social factors influence human behavior, decisions, and attitudes—including economic choices made in social and professional contexts.	[SW4] test/exam - oral or written
	[EKONL3_U12] can independently plan and implement own lifelong learning	The student is able to independently identify their developmental needs in the field of social psychology and to plan and carry out self-directed learning aimed at improving social and professional competencies.	[SU4] test/exam - oral or written
	[EKONL3_W08] has an advanced knowledge of the processes of changing elements, enterprises and whole structures of economic organisations, as well as the processes of changing social institutions, knows what their causes, course, scale, consequences are and what the influence of external stakeholders is on them	The student understands the social and psychological mechanisms involved in changes occurring within economic organizations and social institutions. They are familiar with the causes, course, and consequences of these changes and can identify the role of both internal and external stakeholders in organizational adaptation and transformation processes.	[SW4] test/exam - oral or written

	Course outcome	Subject outcome	Method of verification
	[EKONL3_K03] participates in the preparation of economic and social projects, being able to reconcile legal, economic, ecological, political and social requirements	The student is able to analyze psychological mechanisms influencing individual and group decision-making in the context of socio-economic projects, taking into account legal, economic, ecological, political, and social conditions.	[SK4] test/exam - oral or written
	[EKONL3_W03] knows the relations between economic agents and social organisations operating in the national, international and intercultural arenas	The student has advanced knowledge of the psychological determinants of relationships between economic entities and social organizations operating in national, international, and intercultural contexts.	[SW4] test/exam - oral or written
	[EKONL3_W07] has an advanced knowledge of the economic and financial principles of the functioning and management of economic entities and organisations as well as the legal, organisational, moral and ethical norms and rules governing the functioning of public institutions	The student understands the psychological aspects of functioning and managing organizations, including the influence of legal, organizational, moral, and ethical norms on the behavior of individuals and groups in public and economic institutions.	[SW4] test/exam - oral or written
