	Number of study hours	28		0.0		72.0	100
<b>Subject objectives</b>	Introducing students to the fundamental concepts of the global economy and international economic relations, the process of their evolution, its causes, and consequences. Demonstrating cause-and-effect relationships in international economic relations. Providing a foundation for students to apply basic theories of trade, principles of foreign trade policy and exchange rates, as well as theories of international factor movements to analyze issues encountered in economic practice.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[MSGL3_W12] has a knowledge of the nature, functioning and sources of changes occurring in the structures of economic entities and organisations (in particular those which operate on the international market); understands the causes, course, scale and consequences of these changes	has structured knowledge about the nature, functioning and sources of changes taking place in the structures of global economy entities	[SW4] test/exam - oral or written
	[MSGL3_W11] has a knowledge of (legal, organisational, ethical) rules and norms organizing economic structures and institutions (in particular those on the international market)	has advanced knowledge of the rules and norms organizing economic structures and institutions on the international market	[SW4] test/exam - oral or written
	[MSGL3_W07] has knowledge and understanding of the types of economic ties and regularities governing them, including the principles of functioning of the market and the market mechanism, both in the national and international aspect	knows and understands the types of economic ties and the regularities governing them in the international aspect	[SW4] test/exam - oral or written
	[MSGL3_W04] has an advanced knowledge of different types and essential elements of the structures of economic entities and organisations, and public institutions	has advanced knowledge of various types and important elements of structures of global economy entities	[SW4] test/exam - oral or written
	[MSGL3_W03] has an advanced and structured knowledge of the world economy and international economic relations; understands the process of their evolution, including its causes and consequences	has advanced and structured knowledge of the global economy and international economic relations, understands the process of their evolution, including its causes and consequences	[SW4] test/exam - oral or written
	[MSGL3_W02] has an advanced knowledge and understanding of the terminology of international economic relations and complementary disciplines	knows and understands terminology in the field of international economic relations to an advanced degree	[SW4] test/exam - oral or written
	[MSGL3_W01] has an advanced knowledge of economic sciences, in particular of economics and its place in the system of sciences, including within related disciplines	has advanced knowledge of international economic relations and their place in the system of sciences, including related scientific disciplines	[SW4] test/exam - oral or written
	[MSGL3_U01] can correctly interpret and explain economic and social phenomena, analyse their causes, course and connections between these phenomena using the acquired knowledge of economics, finance and international economic relations	is able to correctly interpret and explain economic and social phenomena, analyze their causes, course and connections between these phenomena, using their knowledge of international economic relations	[SU4] test/exam - oral or written
	[MSGL3_U02] can assess economic and social phenomena occurring in an open economy, interpret necessary statistical data and economic indicators, as well as forecast economic phenomena and processes, using standard methods and tools applied in economic sciences	is able to assess economic phenomena taking place in the global economy, interpret the necessary statistical data and economic indicators	[SU4] test/exam - oral or written
	[MSGL3_U03] can identify and analyse relations between economic entities and public institutions in the national and international environment; using the acquired theoretical knowledge can critically evaluate these relations and indicate directions for their further development or changes	is able to identify and analyze connections between entities of the global economy	[SU4] test/exam - oral or written
	[MSGL3_K02] critically assesses the level of his/her knowledge in the field of economics; is willing to deepen and update this knowledge throughout his/her life	critically assesses the level of his knowledge in the area of international economic relations and the world economy, is ready to deepen and update this knowledge throughout his life	[SK4] test/exam - oral or written

	<table border="1"> <tr> <th>Course outcome</th> <th>Subject outcome</th> <th>Method of verification</th> </tr> <tr> <td>[MSGL3_K01] is ready to recognise the importance of knowledge in the field of economics in the process of identifying and solving economic problems and to consult experts in case of difficulties in solving them independently</td> <td>is ready to recognize the importance of knowledge in the field of international economic relations in the process of identifying and solving economic problems</td> <td>[SK4] test/exam - oral or written</td> </tr> </table>	Course outcome	Subject outcome	Method of verification	[MSGL3_K01] is ready to recognise the importance of knowledge in the field of economics in the process of identifying and solving economic problems and to consult experts in case of difficulties in solving them independently	is ready to recognize the importance of knowledge in the field of international economic relations in the process of identifying and solving economic problems	[SK4] test/exam - oral or written
