	<b>Number of study hours</b>	10.0	10.0	0.0	6.0	0.0	26
	E-learning hours included: 0.0						
<b>Learning activity and number of study hours</b>	<b>Learning activity</b>	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	<b>Number of study hours</b>	26		0.0		74.0	100
<b>Subject objectives</b>	The aim of the course is for students to acquire theoretical knowledge with practical elements in the field of financial reporting of business entities						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[MSGL3_W17] has knowledge of the financial conditions associated with running a business, including the principles of accounting, financial analysis, and international financial settlements	The student has knowledge of financial accounting principles and their application in corporate reporting systems.	[SW5] implementation of a problem task
	[MSGL3_W14] knows and understands terms and principles of intellectual (industrial) property protection and copyright law	The student knows the basic concepts related to intellectual and industrial property protection, including the rules for using licensed financial software.	[SW4] test/exam - oral or written [SW1] oral statement/ conversation/discussion
	[MSGL3_W10] has an advanced understanding of selected methods and tools, including IT tools and data acquisition techniques, which make it possible to describe and analyse economic entities operating on the international market; knows the processes and phenomena occurring in them and between them, and processes supporting decision-making	The student is familiar with the basic IT tools used in business analysis (e.g. Symfonia Finanse i Księgowość).	[SW5] implementation of a problem task
	[MSGL3_U15] can appropriately identify priorities, plan and organise tasks related to their implementation, as well as monitor and evaluate progress	The student is able to plan and organise tasks related to the preparation of financial statements using IT tools.	[SU6] demonstration of practical skills
	[MSGL3_U04] uses the acquired theoretical knowledge in economics to analyse and evaluate the operation of economic entities on the international market, with particular emphasis on the European Union market	The student is able to compare selected elements of financial statements according to different reporting systems (e.g. IFRS vs. national accounting standards).	[SU6] demonstration of practical skills
	[MSGL3_U08] uses methods and computer programmes as well as marketing techniques and tools to acquire and analyse data necessary in his/her professional work to diagnose economic processes and make adequate economic decisions	The student is able to interpret financial data in the context of diagnosing the economic situation of a business entity and making decisions based on available reports and indicators.	[SU7] entries and opinions in the internship diary [SU8] observation of student's independent or team work
	[MSGL3_U16] can plan and implement his/her own lifelong learning, expand and improve his/her acquired knowledge and economic skills; is open to new ideas and techniques; is willing to learn using any method, and has a tendency to interact with other participants of the learning process	The student is able to independently supplement their knowledge and skills in the field of financial reporting systems and data analysis, using various sources (literature, system documentation, e-learning, open data).	[SU8] observation of student's independent or team work
	[MSGL3_K05] correctly identifies, diagnoses and solves dilemmas and various options of solutions related to the profession	The student is able to recognise professional and ethical dilemmas related to the preparation and presentation of financial information in reporting systems.	[SK8] observation of student's independent or team work
