Subject objectives	The aim of the course is to acquaint the student with the rules and norms shaping EU competition policy. This knowledge is linked to competition law as well as microeconomic concepts and models. The student has the opportunity to learn about the interactions between economics and competition law and to apply competition rules in practice through case study analysis.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[MSG3_W13] has a knowledge of the functioning of business entities in the national and international environment, with particular emphasis on the European Union	The student knows how enterprises function in compliance with competition rules within the European Union.	[SW4] test/exam - oral or written
	[MSG3_W11] has a knowledge of (legal, organisational, ethical) rules and norms organising economic structures and institutions (in particular those on the international market)	The student knows about competition rules in the European Union, the institutions responsible for their implementation, and their origin and evolution.	[SW4] test/exam - oral or written
	[MSG3_U04] uses the acquired theoretical knowledge in economics to analyse and evaluate the operation of economic entities on the international market, with particular emphasis on the European Union market	The student uses their theoretical knowledge of microeconomics to analyze and assess the actions of companies that restrict competition within the European Union.	[SU4] test/exam - oral or written
	[MSG3_U03] can identify and analyse relations between economic entities and public institutions in the national and international environment; using the acquired theoretical knowledge can critically evaluate these relations and indicate directions for their further development or changes	The student can identify and analyze business behaviors within the European Union that pose a threat to restricting competition.	[SU4] test/exam - oral or written
[MSG3_K03] participates in the preparation of economic and social projects; can reconcile legal, economic, ecological, political and social requirements	Through case study analysis, the student can reconcile the legal requirements and economic aspects of EU competition policy.	[SK4] test/exam - oral or written
