<b>Subject objectives</b>	To acquaint the student with the principles of the company's functioning and the methods of analyzing the company's financial situation. The student learns the methods and tools for modeling the phenomena and processes that determine the company's activity and completes the proposed financial model. The student acquires in-depth knowledge of the relationship between macroeconomic phenomena, market entities, especially competitive companies, which enables the development of a company's strategy and marketing plan.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[LMMU2_W05] has a knowledge of the human being as a manufacturer and consumer and extended knowledge of the human being as a creator of culture and social structures	Student has an extended knowledge of the human being as a manufacturer and consumer and extended knowledge of the human being as a creator of culture and social structures, which can be used to create business plan	[SW1] oral statement/ conversation/discussion [SW2] presentation/project/paper/ report
