University of Gdańsk

Subject card

Subject name and code	MA seminar C, PG_00201350		
Field of study	Spatial Management		
Date of commencement of studies	October 2026	Academic year of realisation of subject	2027/2028
Education level	Master's studies	Subject group	Obligatory subject group in the field of study Optional subject group Subject group related to scientific research in the field of study
Mode of study	full-time studies	Mode of delivery	at the university
Year of study	2	Language of instruction	Polish
Semester of study	3	ECTS credits	8.0
Learning profile	academic	Assessment form	credit
Conducting unit	Institute of Socio-Economic Geography and Spatial Management -> Faculty of Social Sciences -> Rector		
Name and surname of lecturer (lecturers)	Subject supervisor	dr Grażyna Chaberek-Kałużniak	
	Teachers		

Lesson types

Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
Number of study hours	0.0	0.0	0.0	0.0	30.0	30

E-learning hours included: 0.0

Learning activity and number of study hours

Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours	Self-study	SUM
Number of study hours	30	8.0	162.0	200

Subject objectives

The aim of the course is to prepare students for the independent writing of scientific papers and the presentation of the results of these papers.Substantive support in the preparation and editing of master's theses by students.

Learning outcomes

Course outcome	Subject outcome	Method of verification
[GPMU2_W01] recognises an in-depth degree, the interdisciplinary nature of spatial management and has ordered and theoretically founded knowledge of multidimensional approaches in spatial policy	presents the research problem addressed in the thesis in the context of contemporary socio-economic processes and trends in theoretical terms and taking into account the latest practical solutions	[SW2] presentation/project/paper/ report
[GPMU2_U09] can independently plan own professional or scientific career and guide others in this respect	identifies the tasks and attitudes that are associated with academic and research work	[SU2] presentation/project/paper/ report
[GPMU2_U07] performs complex research tasks or expertise in the field of spatial management by interacting with other people, taking a leading role in teams and presenting the results of the research in a written and oral form using specialised terminology	carries out a complex research task and develops it into a written thesis	[SU2] presentation/project/paper/ report
[GPMU2_U06] can organise and lead a debate among diverse audiences regarding spatial conflicts, with particular emphasis on environmental conflicts	prepares scientific work in a way that ensures the communication of specialised topics to a diverse audience	[SU2] presentation/project/paper/ report
[GPMU2_U05] formulates and tests hypotheses regarding determinants (natural, social, economic, cultural, legal) of spatial management	constructs research questions and hypotheses on spatial economic processes	[SU2] presentation/project/paper/ report
[GPMU2_U01] formulates and solves complex and unusual problems of spatial management and proposes their innovative solutions, taking into account the unpredictability of spatial processes	identifies problems of interest in spatial management and constructs a process to explain/ solve them	[SU2] presentation/project/paper/ report
[GPMU2_K04] is ready to develop the profession's achievements, upholding its ethos, observing the principles of professional ethics by themselves and demanding it from others	adheres to the principles of a fair research process, respects recognised scientific authorities in the field of spatial planning in Poland and worldwide, observes the principles of anti-plagiarism law	[SK2] presentation/project/paper/ report
[GPMU2_K01] is ready to critically assess the possessed knowledge and received content	verifies the materials and information obtained for their usefulness in the research process	[SK2] presentation/project/paper/ report
[GPMU2_W06] identyfies problems and theories in spatial management, taking into account complex dependencies and trends of changes in the natural environment; understands their theoretical and practical significance	research in the master's thesis in the context of contemporary socio-economic processes and trends from a theoretical perspective and taking into account the latest practical solutions	[SW2] presentation/project/paper/ report

Subject contents

A.1 Presentation of the introductory sections of the thesis: aim and scope of the thesis, literature review, data used and methods employedresearch methods used.A.2 Presentation and discussion of the research results obtained (multimedia presentation).

Prerequisites and co-requisites

Knowledge of: the basics of physical and socio-economic geography, including knowledge of the structure of the geographical environment and interactionsknowledge of the structure of the geographical environment and the interactions between its components, as well as the conditions and factors shaping its spatial differentiation; knowledge of research methodologies and techniques applied in physical and socio-economic geographyKnowledge of research methodologies and techniques used in physical and socio-economic geography; knowledge of basic literature on physical and socio-economic geography.knowledge of basic literature in physical and socio-economic geography. The ability to organise individual work independently, search for and synthesise information from a variety of sources, read professional literature with comprehension.sources, read professional literature (including in English) with comprehension, present the results of scientific research (own and foreign) in a public forum.in a public forum.

Assessment methods and criteria

Subject passing criteria	Passing threshold	Percentage of the final grade
Evaluation of partial thesis steps	51.0%	100.0%
