

Subject card

Subject name and code	Global and european energy and climate policy, PG_00202458						
Field of study	Economics, International Economic Relations, International Business, Logistics and Mobility						
Date of commencement of studies	October 2025		Academic year of realisation of subject		2026/2027		
Education level	Master's studies		Subject group		Obligatory subject group in the field of study Optional subject group		
Mode of study	full-time studies		Mode of delivery		at the university		
Year of study	2		Language of instruction		English		
Semester of study	3		ECTS credits		5.0		
Learning profile	academic		Assessment form		credit		
Conducting unit							
Name and surname of lecturer (lecturers)	Subject supervisor		dr Lilia Neumann				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	30.0	0.0	0.0	0.0	0.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		0.0		95.0	125
Subject objectives	The aim of the course is to familiarize students with climate and energy policy at the global and EU levels, with a particular focus on the causes and effects of such policies, their objectives and implementation methods, as well as a critical assessment of the strategies and actions taken.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[EKONL3_K02] is aware of the level of knowledge in the field of economics and understands the need to deepen and update this knowledge throughout life	The student is aware of their economic knowledge regarding climate and energy policy. They are able to evaluate it critically and are eager to expand their understanding.	[SK4] test/exam - oral or written
	[IBMU2_K02] is ready to critically assess the level of acquired knowledge, skills and professional competence in the area of international business	The student is aware of their economic knowledge regarding climate and energy policy. They are able to evaluate it critically and are eager to expand their understanding.	[SK4] test/exam - oral or written
	[IBMU2_U01] can creatively interpret, explain and analyse complex economic phenomena and the relations occurring between them, using the acquired knowledge in international business and international economic and financial relations	Student is able to interpret and present economic conclusions, as well as explain economic phenomena and the relationships between economic actors, particularly in the areas of climate and energy policy.	[SU4] test/exam - oral or written
	[MSG3_K02] critically assesses the level of his/her knowledge in the field of economics; is willing to deepen and update this knowledge throughout his/her life	The student is aware of their economic knowledge regarding climate and energy policy. They are able to evaluate it critically and are eager to expand their understanding.	[SK4] test/exam - oral or written
	[IBMU2_W03] knows advanced terminology in the field of international business, international economics and financial relations and complementary disciplines	Student is fluent in the economic terminology related to climate and energy policy.	[SW4] test/exam - oral or written
	[LMMU2_U01] can creatively interpret and explain economic and social phenomena and relations between them, using acquired knowledge of economics, finance, management sciences, logistics and mobility	Student is able to interpret and present economic conclusions, as well as explain economic phenomena and the relationships between economic actors, particularly in the areas of climate and energy policy.	[SU4] test/exam - oral or written
	[EKONMU2_W02] has an in-depth knowledge of various types of existing economic entities and organisations as well as an extended knowledge of public institutions	Student has advanced knowledge of international economic entities and public institutions, particularly those involved in the development and implementation of climate and energy policy.	[SW4] test/exam - oral or written
	[LMMU2_K02] is aware of the level of his/her knowledge in the field of logistics and mobility; understands the need to extend and update this knowledge throughout his/her life	The student is aware of their economic knowledge regarding climate and energy policy. They are able to evaluate it critically and are eager to expand their understanding.	[SK4] test/exam - oral or written
	[LMMU2_W05] has a fundamental knowledge of the human being as a manufacturer and consumer and extended knowledge of the human being as a creator of culture and social structures	Student has a basic understanding of people and their vital, diverse role in the economy.	[SW4] test/exam - oral or written
	[MSGMU2_W02] knows an advanced terminology in the field of international economics, international economic relations and complementary disciplines	Student is fluent in the economic terminology related to climate and energy policy.	[SW4] test/exam - oral or written
	[MSGMU2_K02] is ready to critically assess the level of acquired knowledge, skills and professional competence in the area of international economic relations	The student is aware of their economic knowledge regarding climate and energy policy. They are able to evaluate it critically and are eager to expand their understanding.	[SK4] test/exam - oral or written
	[EKONL3_W02] has an advanced knowledge of the different types of existing business entities and organisations and public institutions	Student has advanced knowledge of international economic entities and public institutions, particularly those involved in the development and implementation of climate and energy policy.	[SW4] test/exam - oral or written

	Course outcome	Subject outcome	Method of verification
	[MSGL3_U01] can correctly interpret and explain economic and social phenomena, analyse their causes, course and connections between these phenomena using the acquired knowledge of economics, finance and international economic relations	Student is able to interpret and present economic conclusions, as well as explain economic phenomena and the relationships between economic actors, particularly in the areas of climate and energy policy.	[SU4] test/exam - oral or written
	[IBL3_W02] knows and understands fundamental concepts and terminology of international business, international economic and financial relations and complementary disciplines	Student is fluent in the economic terminology related to climate and energy policy.	[SW4] test/exam - oral or written
	[MSGL3_W02] has an advanced knowledge and understanding of the terminology of international economic relations and complementary disciplines	Student is fluent in the economic terminology related to climate and energy policy.	[SW4] test/exam - oral or written
	[EKONMU2_U01] can creatively interpret and explain economic and social phenomena and relations between them, using acquired knowledge of economics, finance and management sciences	Student is able to interpret and present economic conclusions, as well as explain economic phenomena and the relationships between economic actors, particularly in the areas of climate and energy policy.	[SU4] test/exam - oral or written
	[IBL3_K02] is ready to critically assess own knowledge in the field of international business, economics and finance and complementary disciplines	The student is aware of their economic knowledge regarding climate and energy policy. They are able to evaluate it critically and are eager to expand their understanding.	[SK4] test/exam - oral or written
	[MSGMU2_U01] can creatively interpret and explain complex and atypical economic phenomena and the relations occurring between them, using the acquired knowledge in economics, finance and international economic relations	Student is able to interpret and present economic conclusions, as well as explain economic phenomena and the relationships between economic actors, particularly in the areas of climate and energy policy.	[SU4] test/exam - oral or written
	[EKONL3_U01] can correctly interpret economic and social phenomena and apply knowledge of economics, finance and management sciences to explain economic phenomena	Student is able to interpret and present economic conclusions, as well as explain economic phenomena and the relationships between economic actors, particularly in the areas of climate and energy policy.	[SU4] test/exam - oral or written
	[EKONMU2_K02] is aware of the level of their knowledge in the area of solving complex problems in economic,; understands the need to extend and update this knowledge throughout his/her life	The student is aware of their economic knowledge regarding climate and energy policy. They are able to evaluate it critically and are eager to expand their understanding.	[SK4] test/exam - oral or written
	[IBL3_U01] can interpret and explain economic phenomena, analyse their causes, course and connections within these phenomena using the acquired knowledge of international business, economics and finance and complementary disciplines	Student is able to interpret and present economic conclusions, as well as explain economic phenomena and the relationships between economic actors, particularly in the areas of climate and energy policy.	[SU4] test/exam - oral or written
Subject contents	I. The Evolution of Global Climate Policy. II. The Role of Energy in the National Economy. III. Climate Policy in the EU and Globally. IV. Energy Policy in the EU and Globally. V. Young Adults Preferences Regarding Climate and Energy Policy.		
Prerequisites and co-requisites	Basic knowledge of macroeconomics and international relations.		

Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	test	51.0%	100.0%
