

Subject card

Subject name and code	Methodology of Underwater Research of the Marine Environment - lecture, PG_00204941						
Field of study	Oceanography						
Date of commencement of studies	October 2026	Academic year of realisation of subject			2027/2028		
Education level	Master's studies	Subject group			Obligatory subject group in the field of study Optional subject group Subject group related to scientific research in the field of study		
Mode of study	full-time studies	Mode of delivery			at the university		
Year of study	2	Language of instruction			Polish		
Semester of study	3	ECTS credits			1.0		
Learning profile	academic	Assessment form			credit		
Conducting unit	Faculty of Oceanography and Geography -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		dr hab. Mariusz Sapota				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	15.0	0.0	0.0	0.0	0.0	15
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours	Self-study	SUM		
	Number of study hours	15	1.0	9.0	25		
Subject objectives	To familiarize students with the basic issues concerning the methods of using the diving technique for scientific research						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[OCEANMU2-W03] has an in-depth understanding of research methods used in oceanography and related sciences, and interprets their mechanisms and interrelationships across different spatial and temporal scales		knows and understands to an in-depth degree complex research issues and the latest directions in underwater research in the field of oceanography		[SW4] test/exam - oral or written		
	[OCEANMU2-U03] can plan and carry out independently advanced research and measurements, both in field and laboratory, using appropriately selected measurement and analytical techniques in the field of oceanography, adequately to the studied specialty and research problem		is able to select basic measurement and analytical techniques used in underwater research of the marine environment, adequately to the scientific problem posed		[SU4] test/exam - oral or written		
	[OCEANMU2-K05] is ready to follow the rules occupational health and safety, taking care of the entrusted person specialized and recognition equipment emergency situations and take appropriate action activities		is ready to comply with the principles of occupational health and safety, is aware of the risks and hazards resulting from working underwater with the use of specialized equipment		[SK4] test/exam - oral or written		

Subject contents	<p>Underwater research techniques (free diving, unmanned vehicles, remotely operated unmanned vehicles, etc.)</p> <p>Methodology of underwater research using the free diving technique (research planning, equipment requirements and authorizations, safety rules)</p> <p>History of underwater research in the Baltic Sea</p> <p>The use of free diving techniques in marine environment research</p> <p>Organization of scientific diving in Europe</p> <p>Interpretation of geological separations, sedimentary structures of the seabed</p> <p>The use of free diving in archaeological research</p> <p>Presentation of underwater photos and videos documenting scientific underwater research</p>								
Prerequisites and co-requisites									
Assessment methods and criteria	<table border="1"> <thead> <tr> <th data-bbox="456 833 794 862">Subject passing criteria</th> <th data-bbox="799 833 1137 862">Passing threshold</th> <th data-bbox="1142 833 1469 862">Percentage of the final grade</th> </tr> </thead> <tbody> <tr> <td data-bbox="456 869 794 898">final test</td> <td data-bbox="799 869 1137 898">51.0%</td> <td data-bbox="1142 869 1469 898">100.0%</td> </tr> </tbody> </table>			Subject passing criteria	Passing threshold	Percentage of the final grade	final test	51.0%	100.0%
Subject passing criteria	Passing threshold	Percentage of the final grade							
final test	51.0%	100.0%
