Subject objectives	The aim of the course is to analyze key issues of media law, primarily within the Polish legal system. The above analysis will be carried out based on the international legal and constitutional regulation of freedom of expression and freedom of the press, and, above all, on the basis of the regulation contained in the Press Law Act of 1984 and the Broadcasting Act of 1992. The norms of such broadly understood media law will be confronted here with examples of the practice of applying the law (court decisions).
