<b>Learning activity and number of study hours</b>	<b>Learning activity</b>	<b>Participation in didactic classes included in study plan</b>		<b>Participation in consultation hours</b>		<b>Self-study</b>	<b>SUM</b>
	Number of study hours	10		1.0		14.0	25
<b>Subject objectives</b>	The aim of the course is to demonstrate the importance of introducing the principles of social responsibility into socio-economic life by familiarizing students with the sources of moral values and norms in contemporary ethical codes. Explaining the assumptions of the sustainable development concept will enable the inclusion of development principles in the decision-making criteria and will indicate the need for reliable research and will allow understanding the socially responsible concept in the field of technology and innovation, as well as the development of good employee relations.						
<b>Learning outcomes</b>	<b>Course outcome</b>		<b>Subject outcome</b>		<b>Method of verification</b>		
	[OCEANL3-W08] knows and understands concepts and principles related to industrial property protection, copyright law, and social responsibility, and is aware of the limitations arising from copyright protection		The student knows and understands the principles of social responsibility in professional life and research.		[SW4] test/exam - oral or written
