University of Gdańsk

Subject card

Subject name and code	Designing Laboratory II - laboratory , PG_00206175		
Field of study	Oceanography		
Date of commencement of studies	October 2026	Academic year of realisation of subject	2028/2029
Education level	Bachelor's studies	Subject group	Obligatory subject group in the field of study Subject group related to scientific research in the field of study
Mode of study	full-time studies	Mode of delivery	at the university
Year of study	3	Language of instruction	Polish
Semester of study	6	ECTS credits	2.0
Learning profile	academic	Assessment form	credit
Conducting unit	Department of Marine Biology and Biotechnology -> Faculty of Oceanography and Geography -> Rector		
Name and surname of lecturer (lecturers)	Subject supervisor	dr Anna Panasiuk	
	Teachers		

Lesson types

Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
Number of study hours	0.0	0.0	30.0	0.0	0.0	30

E-learning hours included: 0.0

Learning activity and number of study hours

Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours	Self-study	SUM
Number of study hours	30	2.0	18.0	50

Subject objectives

Learning the principles of planning a research cruise and preparing grant applications.

Learning outcomes

Course outcome	Subject outcome	Method of verification
[OCEANL3-K01] is willing to plan and implement, individually or as a team, the subsequent stages of the entrusted task, is willing to take responsibility for the results of these works, effectively cooperates in the team and performs various roles in it	Is ready to take responsibility for his/her own work and to comply with the principles of teamwork and responsibility for jointly implemented project tasks.	[SK2] presentation/project/paper/ report [SK3] text preparation/written work [SK5] implementation of a problem task
[OCEANL3-K04] is willing to constantly deepen knowledge in the field of oceanography and improve professional qualifications, supported by the knowledge of experts	Is ready to continuously deepen his knowledge in the field of oceanography and improve his professional qualifications, supporting the knowledge of experts, especially in the field of planning research cruises and writing grant applications	[SK2] presentation/project/paper/ report [SK5] implementation of a problem task

Subject contents

Principles of planning a research cruise, taking into account the characteristics of the researched water body and the purpose of the expedition. Preparation of a grant application.

Prerequisites and co-requisites

Assessment methods and criteria

Subject passing criteria	Passing threshold	Percentage of the final grade
Preparation of the scientific expedition project and its presentation	51.0%	100.0%

Recommended reading	Basic literature	The literature concerns the water area that is the destination of the cruise and the type of research planned.
	Supplementary literature	The literature concerns the water area that is the destination of the cruise and the type of research planned.
	eResources addresses	
Example issues/ example questions/ tasks being completed		
Work placement	Not applicable
