

Subject card

Subject name and code	Designing Laboratory II - laboratory , PG_00206175						
Field of study	Oceanography						
Date of commencement of studies	October 2026	Academic year of realisation of subject			2028/2029		
Education level	Bachelor's studies	Subject group			Obligatory subject group in the field of study Subject group related to scientific research in the field of study		
Mode of study	full-time studies	Mode of delivery			at the university		
Year of study	3	Language of instruction			Polish		
Semester of study	6	ECTS credits			2.0		
Learning profile	academic	Assessment form			credit		
Conducting unit	Department of Marine Biology and Biotechnology -> Faculty of Oceanography and Geography -> Rector						
Name and surname of lecturer (lecturers)	Subject supervisor		dr Anna Panasiuk				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	30.0	0.0	0.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours	Self-study	SUM		
	Number of study hours	30	2.0	18.0	50		
Subject objectives	Learning the principles of planning a research cruise and preparing grant applications.						
Learning outcomes	Course outcome	Subject outcome		Method of verification			
	[OCEANL3-K01] is willing to plan and implement, individually or as a team, the subsequent stages of the entrusted task, is willing to take responsibility for the results of these works, effectively cooperates in the team and performs various roles in it	Is ready to take responsibility for his/her own work and to comply with the principles of teamwork and responsibility for jointly implemented project tasks.		[SK2] presentation/project/paper/report [SK3] text preparation/written work [SK5] implementation of a problem task			
	[OCEANL3-K04] is willing to constantly deepen knowledge in the field of oceanography and improve professional qualifications, supported by the knowledge of experts	Is ready to continuously deepen his knowledge in the field of oceanography and improve his professional qualifications, supporting the knowledge of experts, especially in the field of planning research cruises and writing grant applications		[SK2] presentation/project/paper/report [SK5] implementation of a problem task			
Subject contents	Principles of planning a research cruise, taking into account the characteristics of the researched water body and the purpose of the expedition. Preparation of a grant application.						
Prerequisites and co-requisites							
Assessment methods and criteria	Subject passing criteria	Passing threshold		Percentage of the final grade			
	Preparation of the scientific expedition project and its presentation	51.0%		100.0%			

Recommended reading	Basic literature	The literature concerns the water area that is the destination of the cruise and the type of research planned.
	Supplementary literature	The literature concerns the water area that is the destination of the cruise and the type of research planned.
	eResources addresses	
Example issues/ example questions/ tasks being completed		
Work placement	Not applicable
