

Subject card

Subject name and code	MA Seminar A, PG_00208603						
Field of study	Tourism and Hospitality						
Date of commencement of studies	October 2026	Academic year of realisation of subject			2026/2027		
Education level	Master's studies	Subject group			Obligatory subject group in the field of study Optional subject group Subject group related to scientific research in the field of study		
Mode of study	full-time studies	Mode of delivery			at the university		
Year of study	1	Language of instruction			English		
Semester of study	1	ECTS credits			3.0		
Learning profile	academic	Assessment form			credit		
Conducting unit							
Name and surname of lecturer (lecturers)	Subject supervisor		dr hab. Mariusz Czepczyński				
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	0.0	15.0	15
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	15		4.0		56.0	75
Subject objectives	The goal of the subject is to acquire the ability to write a scientific work at the master's level, including statement of theses, constructing the work, proper inference, acquiring the ability to critically assess the tourism industry and its development conditions (social, economic and natural), the impact of the industry on local and regional level. Application of skills acquired during studies in the field of research methods and tools in tourism						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[THMU2_W03] Knows in greater depth, economic, social, cultural, legal and natural conditions for the development and functioning of tourism and hospitality, and its interdisciplinary theoretical and practical dimensions, with particular emphasis on the needs of the local community as well as the requirements and expectations of tourists	presents the discussed research problem in the master's thesis in the context of contemporary socio-economic and environmental processes and trends in theoretical terms and taking into account the latest practical solutions.	[SW3] text preparation/written work
	[THMU2_K05] Is ready to develop the profession's achievements, maintaining its ethos, following the principles of professional ethics by oneself and demanding it from others	applies to the principles of a fair research process, respects recognized scientific authorities in spatial planning in Poland and in the world, observes the principles of anti-plagiarism law.	[SK3] text preparation/written work
	[THMU2_U05] Is able to formulate and test hypotheses concerning the conditions (natural, social, economic, cultural, legal) of the tourism economy	conducts a complex research task, formulates and tests hypotheses.	[SU3] text preparation/written work
	[THMU2_U08] Is able to use a foreign language in the field of human geography, spatial management and tourism issues at a level compliant with the B2 + requirements of the European System for the Description of Language Education	uses English as a medium for academic writing	[SU3] text preparation/written work
[THMU2_K01] Is ready to critically evaluate knowledge and learning content	verifies the obtained materials and information in terms of their usefulness in the research process.	[SK3] text preparation/written work	
Subject contents	1. Seminars: <ul style="list-style-type: none"> • Presentation of the specificity of scientific research carried out in individual organizational division. • Presentation of the substantive scope of diploma theses on tourism and hospitality, including sources and possibilities of obtaining data. • Discussion of the rules: respect for authorship in scientific works, identification of research problems, defining the scope (substantive, time and space) and goals of work (cognitive, application, methodological). • AI use rules. • Statement of research theses/hypotheses, research procedure and selection of appropriate research methods. • Creating the structure and layout of work. 		
Prerequisites and co-requisites	the ability to write scientific papers at the undergraduate level; knowledge of basic research methods used in social sciences, use of text editing software		
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Drafting the outline of the dissertation (subject matter, spatial and temporal scope, selected research methods)	51.0%	60.0%
	Performing individually assigned research tasks	51.0%	40.0%
