Subject objectives	The classes are similar to translation classes; students work either on the larger text (work) as a whole or on smaller fragments of the text, which in total illustrate some literary, cultural or historical issue; on the one hand, they consolidate, expand and systematize lexical and grammatical knowledge and improve their translation skills from Greek into Polish, and on the other hand, they learn how to pose and solve research problems (of course, with a small degree of difficulty and small scope).
