Subject contents	Workshops on the culture of the living word are a component of classes on practical learning of the Kashubian language, carried out in cooperation with an external stakeholder - MPiMKP in Wejherowo. At the beginning of the academic year, the instructor establishes the detailed content of the subject, taking into account that it is continued in the next semester - under the name "Practical learning of the Kashubian language - culture of the living word II". The detailed program content is not identical to that in earlier/later years, because students are preparing to implement an original project initiated and conducted by MPiMKP.		
	General program content:		
	1. Exercises on the correct articulation of Kashubian sounds. 2. Exercises shaping the ability to interpret the vocal interpretation of an artistic text in Kashubian: understanding the content, clear pronunciation, correct breathing, correct punctuation, correct accentuation of words, logical accent, correct phrasing, selection of the appropriate pitch, strength and tone of voice, vocal expression (tempo, dynamics). 3. Selected issues from the history of research on Kashubian vocal and instrumental creativity. 4. Kashubian folk songs: discussion of the problems of creating songs based on selected examples, comparative analysis of selected performances and arrangements of the same song by different performers (e.g. "Tata i kòza"), the problem of respecting copyright (dispute over the authorship of a song based on the example of the song entitled "Tu je nasza zemia"), collective singing. 5. Types and significance of songs in regional literature. Contemporary Kashubian musical genres, including cabaret song (e.g. Kashubian Artistic Duo "We Dwa Kònie", FIF, Kùnda).
