Subject objectives	The aim of the course is to familiarize students with the basics of audiovisual workshops in both practical and theoretical dimensions. Classes include: elements of working with a camera, editing, new technologies, etc., as well as techniques and methods of working on an audiovisual project of an artistic and social nature, as well as reflection on the media context of audiovisual practices. An important aspect of the classes will be stimulating and opening communication and integration in the class group by carrying out individual and collective activities using audiovisual means.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[KULMU2_U01] demonstrates fluent skills in searching, interpreting, and selecting information, utilizing various sources, media, and technologies, and formulates independent conclusions based on them.	The student is able to proficiently search and select information in the field of media studies using various technologies.	[SU1] oral statement/conversation/discussion [SU2] presentation/project/paper/report [SU5] implementation of a problem task [SU6] demonstration of practical skills
