Subject objectives	The aim of the course is to equip students with in-depth knowledge of the structure, functions and role of European institutions in the field of security at the level of Europe and the Republic of Poland. Students will learn to analyze the security policies of the EU, NATO and other key organizations, as well as understand their impact on regional and global stability, especially on the stability of the Republic of Poland. The course will prepare students to assess the effectiveness of security institutions and their ability to respond to contemporary threats.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[BNL3_U12] Is able to analyse and evaluate the political decision-making process in the context of security activities.	He can analyze and evaluate the political decision-making process in the context of security actions.	[SU1] oral statement/conversation/discussion
	[BNL3_U04] Uses the knowledge of normative systems related to public safety to adequately respond to the existing challenges.
